

X-200 CHALLENGER

Our Most Discriminating Detector

- Dual Frequency operation for more definitive discrimination and phenomenal depth (6 kHz for big silver coins and 14 kHz for small coins / gold nuggets).
- Operator Selectable Vari-Filter for trash see-through or ground elimination preference (one filter / three filter options).
- Three distinct modes of operation: all-metal Ground Balanced mode and two discriminating Trashout modes (motion and TR Disc non-motion discriminating).
- Fully Adjustable Motion Discrimination Mode with true zero discrimination.
- Auto Notch eliminates common trash items.
- Front End Power Level for tough soil.
- Modified Loop System gives you the maximum depth of any co-planar concentric search coil.
- Ten Turn Ground Balance Control split in two ranges with a toggle switch (soil / salt) for 20 effective turns covering the Iron to pure salt range.
- Interchangeable Coils: 8", 12" and 16 Inch.
- Illuminated Target / Depth Meter for detecting under low light conditions.
- Adjustable Audio Tone Control.
- Headphone Jack.
- Rechargeable Battery System saves you money.
- Optional Hip Mount Carrier is available.

Recommended Accessories:

- 16" Ultra Deep Scan Search Head
- 12" Deep Scan Search Head
- Search Head Protective Covers for the above
- Stereo Headset
- Protective Vinyl Detector Bag
- Hip Mount Conversion Kit with 5' extension cable
- 30" Lower Rod
- Epoxy filled Search Head - eliminates the "cork" effect in water
