## DEEP SEARCH MONEY KING 15 KHZ MOTION SERIES

USE FOR: COIN AND RING SHOOTING - NUGGET PROSPECTING  
RELICS - TREASURE CACHES

SPECIALY HOT  
ON GOLD RINGS  
AND GOLD NUGGETS

**DISCRIMINATES**  
while it  
**GROUND MINERAL  
COMPENSATES**  
no mode change

**POWERFUL**  
Specially designed  
for Slight Motion  
Optional 5" to 8"  
**DEEP SEARCH**

**Specifications:**

- **WARRANTY - LIFETIME**
- **FREQUENCY - 15 KHZ**
- **WEIGHT - with 5" coil 3 lbs. 6 oz.  
with 8" coil 3 lbs. 10 oz.**
- **BALANCE - exceptional, just the way you hunt.**
- **DEPTH - excellent in bench or field test**
- **DURABILITY - designed for the professional**
- **CONSTRUCTION - solid and stable**

**\$290.00  
USA PRICE**

**Features:**

- **SILENT SEARCH AUDIO**
- **VLF DISCRIMINATION** - very slight motion
- **FULL RANGE DISCRIMINATION**
- **AUTOMATIC GROUND MINERAL REJECTION**
- **POWER/Sensitivity control**
- **PUSH-BUTTON PIN POINT** - audio limiter for shallow targets.
- **AUDIO ALERT** for low batteries
- **POWERED** by ten AA penlight batteries (included) (recharge kit available at extra cost) easily accessed and detachable!
- **EXTRA LIGHT-WEIGHT, WATERPROOF CONCENTRIC SEARCH COIL** - 8" or 5" (5" coil recommended for areas with lots of junk)

Designed for:

# SERIOUS AMATEURS and PROFESSIONALS

- USE FOR: 1. Coins & Rings  
2. Relics  
3. Small Caches  
4. Nuggets

## FEATURES

- Instant Retuning**  
Push Button to Retune, Pinpoint, and Measure target depth!
- Target Analysis**  
Determines acceptability of target in Minimum Amount of Time
- Independent, On-Line Threshold Audio Tuning**
- Full-Range Variable Discrimination Control**  
Rejects from nails thru screw caps
- Wide-Range (10 Turn) Ground Control**  
Allows compensation for even the most mineralized soils
- Tone Control**  
Select the frequency which best suits your hearing
- Full-Time Battery Monitoring**
- Four Search Modes**
  1. Analyze for Ground Compensated Discrimination Without Motion
  2. VLF All-Metal for relic and cache hunting
  3. DISC for searching in light to neutral mineralized soils
  4. Motion for fast search and depth measurement
- Easy Access Battery System**  
Comes complete with 6 long-life 9 volt batteries, will Accept rechargeables . . . Full Time Test Specially designed Circuit to reduce battery drain
- HIGHLY-DIRECTIONAL TIGHT PATTERN WATERPROOF 5" or 8" Concentric Coil**
- ADJUSTABLE DUAL-SYSTEM LOCKING SYSTEM**  
Prevents annoying "stem-slop"
- STEREO HEADPHONE JACK**  
Caution: Extra-Powerful — use with adjustable volume earphones only!
- New high gain audio amplifier circuit**
- Belt Not included with Body Mount**

# D-TEX ELECTRONICS PROUDLY ANNOUNCES A MAJOR STEP TO IMPROVE METAL DETECTOR PERFORMANCE!

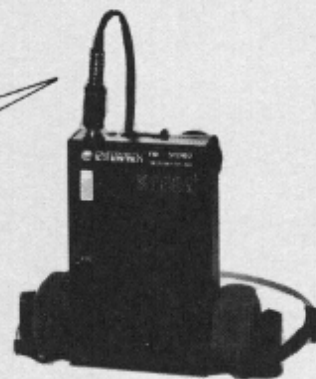

THE **BRAND** NEW D-TEX

Relic Hunter

Heavyweight for Woodland  
and Cool Weather Hunting

Coin Hunter

Lightweight for Comfort  
in Warm Temperatures

## CORDLESS HEADPHONE

- Permits detector operator freedom to probe and dig without being "leashed" to detector with headphone cable.
- Ends forever headphone cable breakage.
- Improves ability to hear those weak, deep targets.
- Insures privacy in hearing metal detector signals.
- Operates with any brand/model detector equipped with headphone jack (unit is not submersible).
- Relic hunters are now freed from cable snagging by tree limbs and vines.
- Includes both transmitter and receiver.
- Receiver is also used for regular radio reception.
- Comes equipped with batteries.
- Drastically improves mobility of "water hunters."
- Amateur electronic wizards can dream-up numerous non-metal detector applications. All you need is a compatible signal.
