FISHER RESEARCH LABORATORY YOU

We will not sell YOU a metal detector with incredible claims, "scientific" charts & graphs or outrageous treasure tales. We sell: the BEST PERFORMANCE, EASE OF USE & RELIABILITY. The number one ...since 1931

Fisher Research Laboratory was founded in 1931 by Dr. Gerhard Fisher in his Palo Alto garage. Improving on technology he developed for a direction finder on planes at sea, Dr. Fisher and four employees began producing the Metallscope, or M-Scope, the *first* patented metal detector. Today, Fisher M-Scope is the registered trademark on all Fisher products and a sure sign that you're buying the best detectors available. When it's quality, service, performance, reliability and a Lifetime Warranty* you're after, find it... with Fisher.

Coin \$strike

programmable target ID

FEATURES:

- Extreme depth and I.D. accuracy
- High resolution numeric I.D. readout
- Visual precision pinpointing (linear numeric readout)
- Precision auto-ground balance system
- Accurate Numeric I.D. in both ALL METAL or DISC mode
- Notch Discrimination (Foil, Nickel, Tabs, Zinc)
- Numeric I.D. averaging function control
- 3 modes of operation: true ALL-METAL motion mode, DISC mode, & all-metal PINPOINT mode (non-motion)
- New digital I/O --- keypad & large LCD with constant control read-out
- 4-tone audio I.D. system
- (IRON, FOIL/NICKEL, TABS/ZINC, COPPER/CLAD/SILVER COINS)
- Programmable interface: last-setting, favorite-setting, and factory preset memory features
- High resolution Iron Discrimination
- Salt mode for beach hunting
- Lightweight with cushioned armrest & grip
- Hip-mount configuration & 3-piece handle
- Lifetime Limited Warranty*

\$1095

msrp with 8" search coil

OPTIONAL ACCESSORIES

Carrying Bag, Hard Carrying Case, Coil covers, 10 1/2" Spider Coil* (available Dec. 2002), Holster, Fisher Phones, Stereo Phones

- New FisherTRAK® Ground-Tracking System
- New D.P.A.® Technology *patent pending
- Simple, Precise, Programmable & Pure Performance
- Splashproof & Rugged

\$995

msrp with 8" search coil

Fisher's
CZ-70 Pro offers

LCD target ID with four distinct target tones and a soft bell tone for large shallow objects. With the easy to program notch, you can reject or accept any combination of seven target categories. The CZ-70 Pro offers surface mount electronics with zero battery drain for last setting turn-on and faster pinpoint-mode response, a hot wide scan, all-metal, auto tune mode, a wet sand mode and touch VCO pinpointing. The control box of the Pro is belt, hip, or even chest mountable with the optional harness. Backed by Fisher's Lifetime Warranty*.

OPTIONAL ACCESSORIES Carrying Bag, Hard Carrying Case, Coil Covers, 5" search coil, 10½" spider coil, Chest Harness, Fisher Phones, Stereo Phones

CZ-70 Pro programmable target ID

FEATURES:

- 4-Tone Audio Target I.D.
- Lock-On LCD Target I.D.
- Bright LCD Back Light
- Programmable Notch
- Big-Target Bell Tone
- Touch-Pad Controls
- 3-Piece Handle
- Built-in Mylar Speaker
- Dual VLF Frequency
- Wet-Sand Beach Mode
- Wide-Scan Autotune Mode
- Digital Depth Reading
- Last Settings Memory
- Converts to Hip Mount
- Faint-Target Audio Boost

- Surface Mount Electronics
- Turn-On-and-Go Operation
- Optional Manual Ground Adj.
- Only two 9V Drop-In Batteries
- Microprocessor Controlled
- Double-Locking Nylon Stem
- Silent, VLF Slow-Motion Search
- No-Motion VCO Pinpointing
- Constant Battery Monitor
- Lifetime Limited Warranty*

- Deep Search Capability
- High Performance
- Visual Target I.D.
- Built to Last

\$849.95

msrp with 8" search coil

The CZ-5 is easy to use, just turn on and go with pre-set control markings. It offers three tone audio target ID, big target alert, depth reading, push button pinpointing, wet-sand operation, deep-target audio boost and a built in speaker. It uses two 9V batteries for up to 20 hours of operation and comes standard with a 3 piece breakdown handle for easy transport. Plus, the control box can be handle or hip mounted. Backed by Fisher's Lifetime Warranty*.

OPTIONAL ACCESSORIES Carrying Bag, Hard Carrying Case, Coil covers, 5" Search Coil, 10½" Spider Coil, Holster, Fisher Phones, Stereo Phones

CZ-5 deep search detector

FEATURES:

- Visual target ID
- Three tone, audio target ID
- Built in Speaker
- Pushbutton ground adjust
- Big target alert
- Two-frequency, Fourier Domain Signal Analysis
- Increased depth in mineralized soil
- Turn-on-and-go, pre-set control markings
- Wet sand mode
- 3-Piece handle
- Faint target audio boost
- Eight-inch, open center Spider Coil
- Drop-in batteries
- Handle mount or hip mount
- Silent-search, VLF, slow motion discrimination
- Super-hot, wide scan, all metal, auto tune mode
- Lifetime Limited Warranty*

GOLD HUNTERS

Fisher Gold Hunters, Designed to Set the Gold Standard

Gold Strike Advanced New Gold Hunter

- Deep, Accurate, Innovative
- New Fisher TRAK AFS®
- New Fisher F.A.C.T.®

NEW!

FEATURES:

- NEW Fisher TRAK AFS® - Adaptive Feedback System (patent pending)
- NEW F.A.C.T. - Fisher Adaptive Coil Technology (patent pending)
- Innovative 2-tone audio system (simultaneous "all-metal" and "good target")
- Two search modes: true "all-metal" mode and "disc" mode
- All new digital I/O — keypad and large LCD with constant control read-out
- Fast, automatic ground-tracking system
- Precision auto-ground balance system
- 30 kHz Operation on 10" or 6 1/2" elliptical coil
- Optional manual ground balance
- Extreme accuracy on iron discrimination

- Automatic hot-rock elimination
- See small gold nuggets behind hot rocks
- Last-setting / favorite-setting memory feature
- Automatic low battery indicator
- Audio alert for large target and low battery
- Lightweight with cushioned armrest and grip
- Hip-mount configuration & 3-piece handle
- Lifetime Limited Warranty*

\$995
msrp with 6.5" or 10" search coil

The gold detector of the future, here today! The Fisher Gold Strike takes over where our legendary Gold Bug series of detectors left off. The high-sensitivity Gold Strike comes equipped with advanced new features designed to revolutionize gold detecting and make your treasure hunting adventures "golden." Backed by Fisher's Lifetime Warranty*.

OPTIONAL ACCESSORIES:
Carrying Bag, Hard Carrying Case, 6.5" or 10" Elliptical Search Coil, Coil Covers, Chest Harness, Fisher Phones, Stereo Phones

Gold Bug-2

\$789.95
msrp with 6.5" or 10" search coil

71 kHz Nugget Hunter

- Legendary Nugget Hunter
- Ultra High Frequency
- Deep Search

FEATURES:

- Powerful 71kHz Operation for extreme sensitivity to small gold nuggets
- IRON DISC™ mode rejects iron (trash) targets and hot rocks.
- Resistant to dust and moisture.
- Boosts audio signal of small and deep targets
- Convertible to hipmount or chest mount Weighs only 2.9 lbs.
- Quartz-crystal locked electronics.
- Takes only two, drop-in, 9-V batteries
- Dual-knob ground control for coarse and fine adjustment.
- Lifetime Limited Warranty*

Fisher engineers worked for years to build a detector that would carry on the Gold Bug's well-deserved reputation as the world's premier nugget hunter, and this is it! Like the original Gold Bug, the Gold Bug-2 is designed for finding gold nuggets. It offers extraordinary sensitivity, ultra-high frequency (the highest operating frequency on the market), iron-discrimination, dust and moisture resistance, audio-boost and the ability to operate in extremely mineralized soil with a 3 position mineralization switch. It comes with either a 6 1/2" or a 10" elliptical search coil for the same great price. Backed by Fisher's Lifetime Warranty*.

OPTIONAL ACCESSORIES:
Carrying Bag, Hard Carrying Case, 6.5" or 10" Elliptical Search Coil, 14" Elliptical Search Coil, Coil Covers, Chest Harness, Fisher Phones, Stereo Phones

UNDER WATER

Spanish Silver
Clyde Kuntz, FL.

The Professionals Choice Underwater, Anywhere, Any Weather submersible, target ID

\$1195.95 msrp with 8" search coil

• High Performance All Weather Detection.

Go anywhere, do anything, with the all-weather target ID machine that's leakproof to 250 feet deep, the CZ-20 Quicksilver. Just turn on and go with preset controls. It's patented electronics make it deep-seeking while it ignores the destabilizing effects of salt water, plus, it offers three tones to identify varying types of metal with faint-target audio boost and big target alert. Backed by Fisher's Lifetime Warranty*.

OPTIONAL ACCESSORIES CZ-20, 1280-X, Impulse:
Open Coil Covers, Carrying Bag, Hard Carrying Case
*Underwater units also available with 10½" search coil

\$679.95 msrp with 8" search coil

• Turn On & Go Operation • Discriminating & Affordable

The deep-seeking, submersible, Aquanaut features automatic turn on-and-go operation for salt water, fresh water or land use. VLF discrimination, target strength LED and our patented quartz-crystal circuitry offers up to 75 hours of battery life. For added ease of use, the control box converts to a belt mount. Backed by Fisher's Lifetime Warranty*.

\$789.95 msrp with 8" search coil

• Easy to Use, No Motion • A Favorite of the Pro's

The Impulse offers black-sand and salt water operation and has a high sensitivity to silver and gold. It also detects all metals, and is built to take a beating. It is easy to use with instant target response and only 2 knobs while providing over 100 hours of battery life. The Impulse includes

a waterproof headset, and the control box easily converts to a belt mount unit. Backed by Fisher's Lifetime Warranty*.

FEATURES:

- Dual frequency Fourier Domain signal analysis
- Silent search, VLF, slow motion discrimination
- Wide scan, all-metal autotune mode
- Pushbutton, VCO no motion for precise pinpointing
- Wet sand operation
- Pushbutton ground balance
- More depth in mineralized soil
- Waterproof headphones standard
- Converts to belt mount
- Lifetime Limited Warranty*

CZ-20 Quicksilver

all-purpose detection

1280-X Aquanaut

FEATURES:

- Salt & fresh water or land use
- Leakproof to 250 feet.
- Long battery life
- Converts to belt mount.
- Ignores small trash
- Audio & visual target response
- Patented quartz-crystal circuitry.
- Waterproof headphones standard
- Lifetime Limited Warranty*

Impulse pulse induction

FEATURES:

- Leakproof to 250 ft.
- High gold, silver sensitivity
- Detects all metals.
- Easy pinpointing
- Waterproof headphones std.
- Converts to belt mount
- Continuous, automatic battery check
- LCD bar graph displays signal strength and battery condition.
- Lifetime Limited Warranty*

Relics
Bill Ladd, RI.

RELIC & COIN

71 Years Doesn't Make Us a Relic, It Makes Us Better at Finding Them!

1270 special edition

- Super Sensitive to Relics
- Improved Iron Discrimination
- Extreme Depth

Trigger Switch Zero-Motion Pinpointing
Low Battery Alert
Double locking lower stem
3 piece breakdown handle
Lifetime Limited Warranty*

FEATURES:

Three Search Modes – normal discrimination, enhanced high resolution iron discrimination, and all-metal ground balanced search

Patented Double Derivative, Crystal-Locked Electronics

"Cutting Edge" performance in moist soils

Improved "See-Through" in iron trash

Sensitivity Control to enable silent search or audio threshold

Silencer for silent (3rd derivative) discrimination

Trigger Switch mode change

\$699.95

msrp with 8" search coil

The 1270 is the pinnacle in a line of superior detectors.

Its sensitivity to relics is now better than ever and its the one to beat in target depth. The 1270 also

provides you with a toolbox of easy to use features that will give you an advantage in every treasure hunting situation. Backed by Fisher's Lifetime Warranty*.

OPTIONAL ACCESSORIES 1270, 1266-X, 1236-X:
Carrying Bag, Hard Carrying Case
5" Search Coil, 10½" Search Coil, Coil Covers,
Chest Harness, Fisher Phones, Stereo Phones

1266-X deep search

- Light Weight & High Performance
- Ultra Deep, Turn On & Go
- 3-Piece Breakdown Handle

Drop-in, no wires, battery packs
3 piece breakdown handle
Lifetime Limited Warranty*

FEATURES:

Automatic turn-on-and-go operation

Silent, no-threshold operation

Twin VLF-slow-motion trash-reject modes

Toggle-switch zero-motion pinpointing

Patented double derivative, quartz crystal locked electronics

Push-pull, dual range sensitivity control

Built-in recharge circuitry

Trigger switch mode change

\$599.95

msrp with 8" search coil

No tuner, no meter, no ground adjust, no nonsense. Just pick it up and start searching. Compare it to any detector made at any price and you'll agree, the 1266-x is the one to beat! A

deep seeking detector isn't doing the job if its response is too faint to hear...you're missing small targets. Not with the 1266-x. You'll hear more and you'll find more. Complete with a 3 piece breakdown handle. Backed by Fisher's Lifetime Warranty*.

1236-X2 competition hunter

- Silent, Do-It-All Detector
- Variable Frequency

\$499.95 msrp with 8" search coil

Surface Mount Technology
VCO Pinpoint Audio
Lifetime Limited Warranty*

FEATURES:

Preset Iron Discrimination Setting

Sensitivity/Battery Test Control

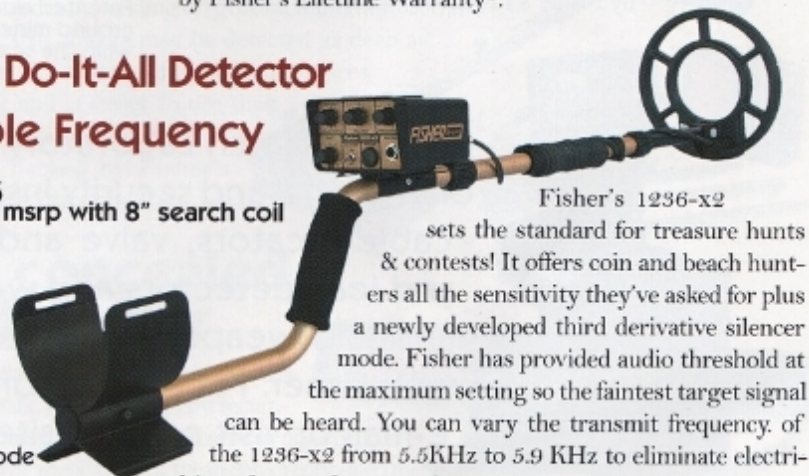

Silencer mode discrimination

Push-Button, No-Motion Pinpoint Mode

Patented, Deep Seeking Electronics

High-Tech Digital & Analog Circuitry

3 piece breakdown handle

Fisher's 1236-x2

sets the standard for treasure hunts & contests! It offers coin and beach hunters all the sensitivity they've asked for plus a newly developed third derivative silencer mode. Fisher has provided audio threshold at the maximum setting so the faintest target signal

can be heard. You can vary the transmit frequency of the 1236-x2 from 5.5KHz to 5.9 KHz to eliminate electrical interference from nearby metal detectors... a must for the competition hunter! Complete with a 3 piece breakdown handle. Backed by Fisher's Lifetime Warranty*.

TURN ON AND GO!

First Find - Gold Rings
Barbara Manifest, PA

In the Fisher Tradition, So Easy to Use, So Much Performance!

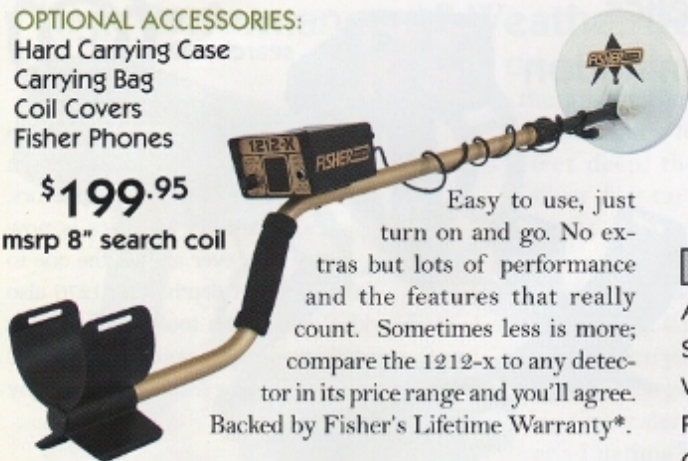

turn on & go detector

OPTIONAL ACCESSORIES:

- Hard Carrying Case
- Carrying Bag
- Coil Covers
- Fisher Phones

\$199.95

msrp 8" search coil

Easy to use, just turn on and go. No extras but lots of performance and the features that really count. Sometimes less is more; compare the 1212-x to any detector in its price range and you'll agree. Backed by Fisher's Lifetime Warranty*.

- Easy to Use
- Low Price
- Deep Search

1212-X

FEATURES:

- Automatic ground rejection and tuning
- Silent, no threshold operation
- VLF Slow-motion discrimination
- Patented double derivative electronics
- Only 2.9 pounds
- Only one 9 volt transistor battery

Simple one-knob operation
Lifetime Limited Warranty*

OPTIONAL ACCESSORIES:

- Fisher Phones, Stereo Headphones
- 10 1/2" Spider Search Coil
- 5" Search Coil
- Hard Carrying Case
- Carrying Bag
- Coil Covers

\$349.95

msrp 8" search coil

If you're looking for affordable depth, discrimination and ease of operation, this is the detector to check out. The 1225-goes deep. VLF slow motion discrimination utilizes double derivative circuitry to ignore ground minerals and junk. High performance for a low price. Built tough and backed by Fisher's Lifetime Warranty*.

high performance detector

- Great Price!
- Deep Detection,
- High Performance

1225-X

FEATURES:

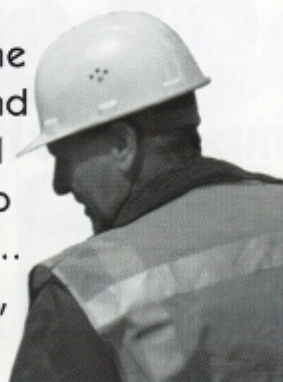

- No-Motion Pinpointing: Just push a button and you're in a hot, instant ground-comp, all metal pinpoint mode.
- Automatic Operation: No threshold tone, no ground adjust, no nonsense. Just turn it on and go. Two knobs and a push-button do it all.
- VLF Slow Motion Discrimination: Patented double derivative circuitry ignores ground minerals and junk without having to whip the search coil back and forth.

3 piece breakdown handle
Lifetime Limited Warranty*

Fisher Research Laboratory manufactures a full line of industrial and security instruments. From pipe and cable locators, valve and box locators, sound and leak detectors and water level indicators to handheld weapons detectors and more, find it... with Fisher. SPECIALITY & INDUSTRIAL

Fisher, for All Your Locating Needs: Hobby, Industrial, Security

M-66

valve & box locator

The M-66 all-metal, no motion detector provides ultra-sensitivity, uncanny accuracy and maximum ground penetration. These features combine to eliminate any guesswork in pinpointing "hidden" metal objects. The M-66 can tune out the semi-conductive ground, minerals, and vegetation, which can produce false responses from a detector. Built tough and backed by Fisher's Industrial 2-year warranty.

\$420
msrp 8" search coil

M-97

valve & box locator

The M-97 all-metal, no motion detector features push-button tuning, allowing the user to quickly and easily maintain optimum sensitivity to buried metallic objects for easy pinpointing. This is combined with special Auto-Tune circuitry that provides a continual, but gradual, retuning of the M-97 to counteract any drift. Built tough and backed by Fisher's Industrial 2-year warranty.

\$525
msrp 8" search coil

M-101

metal probe & rebar locator

The M-101 all metal, quick tune, rugged metal probe is designed specifically for finding reinforcing bars, conduits, and other metal objects embedded in concrete, or buried soil. The 3 1/2" diameter search coil effectively locates and pinpoints small metal objects. Built tough and backed by Fisher's Industrial 2-year warranty.

\$500
msrp

FP-10

magnetic locator

Designed to locate ferrous objects such as pk nails, iron pipes, valve covers, masonry nails, manhole covers, cast iron water and gas lines and survey markers and more, underground, under water or in snow. The FP-10 magnetic locator offers top-of-the-line features such as: ERASE: to cancel disturbances, POWER LINE INDICATOR, SENSITIVITY & VOLUME. A low level audio tone is always present at the minimum setting to indicate a "power-On" status; the pitch increases as ferrous objects are approached. Treasure Hunters should note: the FP-10 is great for identifying deep iron targets. Built tough and backed by Fisher's 5-year warranty.

\$795
msrp

- Built to Locate Ferrous Objects
- Top-of-the-Line Features

Gemini-3

"two-box" cache finder

Two box treasure hunters know that Fishers Gemini-3 has a reputation for being the best there is. Designed to locate deep objects; depending on ground mineralization and target size objects may be detected as deep as 20 feet! The Gemini-3 goes deeper, traces farther and is easier to use than any other cache finder in its class. Backed by Fisher's Lifetime Warranty*.

- Reputation for Being the Best
- Time Tested Design **\$599.95** msrp
- Goes Deeper, Traces Farther!

CW-10

hand-held concealed weapons detector

The Fisher CW-10 is advanced yet easy to operate and is extremely sensitive to all metals. Built to safeguard secure-sensitive areas the CW-10 is designed to scan persons or objects to pinpoint the exact location of metal objects. It can detect concealed metallic objects as small as a hat pin - even as small as the metal springs and firing pins of composite handguns. It weighs a mere 17 ounces, is sealed against rain and dust, and operates on one 9V standard or rechargeable battery. Built tough and backed by Fisher's Industrial 2-year warranty.

- Easy to Operate
- Lightweight **\$200** msrp
- Dependable.

Fisher Gear Look your best while using the best. Everything from hats & shirts to coffee cups and cash/trash aprons.

Books for how-to information on everything from coin shooting and nugget hunting to underwater treasure hunting.

Headphones Most treasure hunters agree, the most important accessory you can get is a good set of headphones. Reduce background noise and hear those faint, deep signals.

Search Coils The small coils are great for high density trash areas, highly mineralized soil and hard to reach tight spots. The big coils go 10-20 percent deeper and cover a lot more ground with each sweep. All are completely waterproof.

Coil Covers Protect your search coil from wear and damage with these inexpensive, snap on, lightweight detector protectors.

Recharge Kits Never buy batteries again. Includes nicad batteries and two chargers: one for 12 volt, negative ground auto cigarette lighter and a 110 volt wall socket. Also available: a converter for foreign batteries.

Cases & Bags Lightweight, tough, and good looking. These cases and bags are a great way to travel or store your detector.
