

# FISHER m-SCOPE™

*First Name In  
Metal Detectors  
Since 1931*

**CATALOG**

FISHER RESEARCH LABORATORY, INC.

## OVER A HALF CENTURY AGO . . .

Dr. Gerhard Fisher  
"Father of the Metal Detector"

The legendary line of Fisher metal detectors had its origins in 1923 when a young research engineer from the University of Dresden first set foot on the shores of America. Gerhard Fisher bought himself a motorcycle, drove it to California and within a few years began to attract the attention of scientists all over the world. Dr. Albert Einstein, for one, praised Fisher's work and encouraged him to continue.

In the late 1920's he was granted the first patent ever issued for aircraft radio direction finding equipment. In 1931 he founded Fisher Research Laboratory in his garage and in 1937 he was granted the first metal detector patent ever issued. He called his first detector the "Metallascope". The "Metallascope" captured the imagination of the world and was soon nicknamed the "M-Scope".

Over the years Dr. Fisher and his team of engineers designed and produced such sophisticated products as geiger counters, radio communication systems, voltage detectors and cable fault locators. Today the company offers underground detection instruments ranging from water leak detectors to a complete line of treasure hunting equipment.

## TODAY . . .

. . . Three months in Australia and I found enough gold with my Fisher to live comfortably for a year in California.

*Pieter Heydelaar  
Professional Treasure Hunter  
Fallbrook, California*

We have amassed a small fortune in coins through hours of practice and, we sincerely believe, by using the best metal detectors on the market today. All the coins we sell are coins that we have found with our Fishers in areas that, in most cases have been worked for years by other detectors. If this does not prove that Fisher builds a superior metal detector, I don't know what will.

*K. J. Richardson  
R & J Rare Coins and Jewelry  
Pocatello, Idaho*

Our family has won a total of 18 first place awards, 10 second places and 3 third places in individual and team competition hunts using our Fisher detectors. We've also found thousands of dollars worth of coins and jewelry on Southern California beaches, Arizona ghost towns and the Mexican border.

*Sharon Hardman  
Garden Grove, California*

I have been using a Fisher for about 5 years and I think they are the best. We look for civil war relics but I find that they do extremely well on coins and rings also. They have stood the test, time and time again. Relic hunting, Tennessee style can be awful rough on a detector but the "Fish" can handle it. I'm a big promoter of Fishers because I know what they can do.

*Donnie Vaughn  
Madison, Tennessee*

# THE 1260-X *Designed for the Serious Treasure Hunters.*

## **AUTOMATIC GROUND REJECT DISCRIMINATOR**

It took space-age micro electronics and 51 years of engineering know how to produce this revolutionary new metal detector. The 1260-X was designed to satisfy the professional treasure hunters' need for a rugged, ground eliminating discriminator, yet it's so simple to operate that even a beginner can master it in minutes.

## **AUTOMATIC GROUND REJECTION**

No ground adjust knobs or buttons to contend with. Turn it on and it's ready to go. Period. Rejects ground minerals and trash simultaneously.

## **DUAL DISCRIMINATION MODES**

Switch back and forth between any two different levels of discrimination as you search.

## **VLF-VERY SLOW MOTION**

With an ordinary motion detector, the operator must switch to a (normal) "Non-Motion" Mode to pin point each target.

The motion required for the 1260-X is so slow that it doesn't even have a "Normal" Mode. The 1260-X is a motion detector designed for maximum performance at normal to almost zero motion sweep speeds.

## **PULSEGATE UNIPOLAR AUDIO PROCESSING™**

This exclusive Fisher circuitry allows you to hunt silently, below the audio-threshold, with no sensitivity loss. If you wear headphones you'll love this feature!

## **TRIGGER TUNER**

Instantly change modes and automatically retune or check battery condition with this 3 position, spring loaded trigger.

## **SCIENTIFICALLY BALANCED**

The 1260-X feels like part of your arm. Weighs only 4 lbs. and balanced to feel like less.

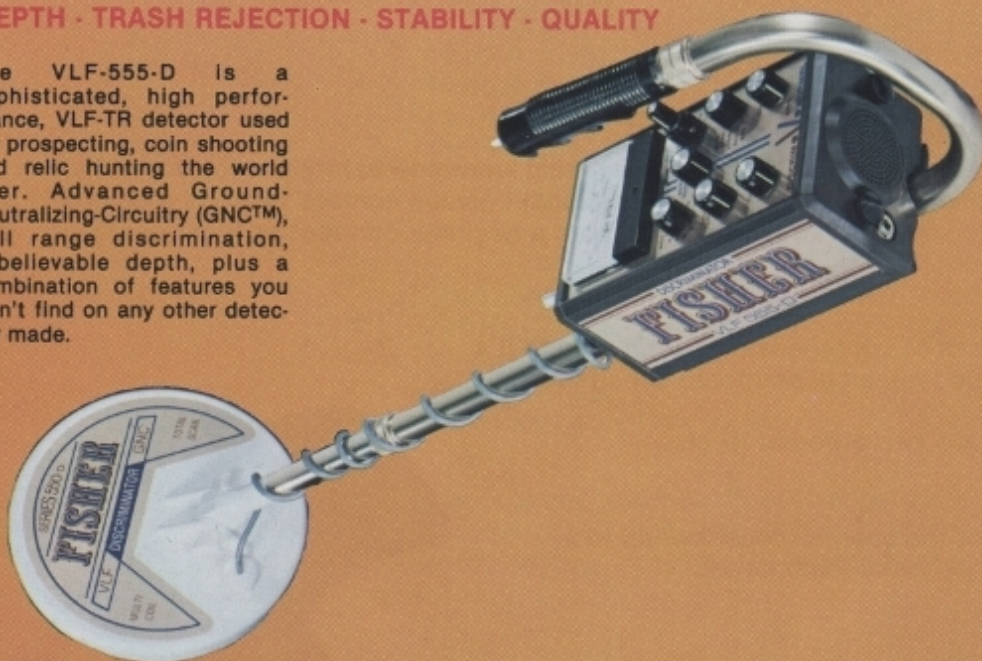

## **— CHECK THESE FEATURES —**

- 100% SHIELDED CONCENTRIC SEARCH COIL
- BUILT-IN WING FEET
- SOFT FOAM GRIP AND ARM REST
- DOUBLE LOCKING ADJUSTABLE SHAFT
- LONG BATTERY LIFE, 15-25 HRS. ON CARBON ZINC BATTERIES
- OPTIONAL BATTERY RECHARGE KIT - RECHARGES NI-CADS FROM WALL OR AUTO WITHOUT REMOVING BATTERIES.
- 5-YEAR LIMITED GOLD SEAL WARRANTY

## VLF-555-D

**FOR THE TREASURE HUNTER WHO WANTS IT ALL!  
DEPTH · TRASH REJECTION · STABILITY · QUALITY**

The VLF-555-D is a sophisticated, high performance, VLF-TR detector used for prospecting, coin shooting and relic hunting the world over. Advanced Ground-Neutralizing-Circuitry (GNCT™), Full range discrimination, unbelievable depth, plus a combination of features you won't find on any other detector made.

### FEATURES:

- **DUAL MODE OPERATION:** All-metal VLF-ground rejection and full range discrimination to reject buried trash.
- **DST™:** The spring loaded \*Dual-Syncro-Tuning switch on the handle automatically retunes and changes modes.
- **TWIN SENSITIVITY CONTROLS:** One for each mode. Experienced th'ers know how important this Fisher exclusive is!
- **ULTRA-SLOW-AUTOTUNE:** New circuitry for nearly drift free performance in almost any environment.
- **TELESCOPING HANDLE GRIP:** Adjust for perfect balance.
- **AUTO-SPEAKER-DISCONNECT:** Lay it down and the speaker automatically shuts off.
- **8" ISOCON™ SEARCH COIL:** Super sensitive yet too stable to provide false signals every time it hits a rock or stump.
- **BATTERY CHECK, GROUND REJECT, TUNING AND VOLUME CONTROLS.**

## VLF-553-D

**IN THE NO-COMPROMISE TRADITION  
OF THE VLF-555-D**

This deep-search machine has some very unique features. The VLF-553-D is for the advanced TH'er who wants to fine-tune every detection function to his own exact requirements.

### FEATURES:

- **DUAL MODE · VLF ·** all metal plus full range discrimination.
- **TWIN 10-TURN TUNERS ·** Independently super fine-tune each mode.
- **TWIN SENSITIVITY CONTROLS ·** One for each mode for optimum performance in highly mineralized ground.
- **COARSE/FINE DUAL KNOB GMC™ CONTROL ·** For precision ground-reject adjustment.
- **60 CYCLE SYNC SWITCH ·** -Eliminate power line interference.
- **TOGGLE MODE CHANGE HANDLE SWITCH.**

## VLF-552-D

**MEDIUM PRICED-MAXIMUM PERFORMANCE**

The best selling VLF-552-D has the same basic GNCT™ circuitry as the VLF-555-D. It also has the same ISOCON™ search coil, the same heavy duty housing and is built to meet the same exacting standards of quality and performance.

### FEATURES:

- **DUAL MODE**
- **SENSITIVITY CONTROL**
- **PUSH BUTTON TUNING**
- **ULTRA-SLOW-AUTO TUNE**
- **VARIABLE DISCRIMINATION CONTROL**
- **BATTERY CHECK, TUNING, GNC™ AND VOLUME CONTROLS.**

**VLF-551-D**  
**LEAN & MEAN - NO FRILLS**  
**METAL DETECTION**

The most streamlined of the legendary 550-D Series. The VLF 551-D eliminates junk and rejects ground mineralization just like the top of the line, but it's lighter, easier to use and easier on the pocketbook.

**FEATURES:**

- Dual Mode
- Push Button Tuner
- Ultra-Slow-Autotune
- Combined GNC™ & Discrimination Control
- Battery Check, Tuning & Volume Controls

**FISHER** m-SCOPE™

- **STEREO HEADPHONE JACKS & BUILT-IN SPEAKERS** - Standard on all Fisher Detectors.
- **ULTRA-SLOW-AUTOTUNE** - Advanced circuitry on all models with push-button or DST\* tuning. Constant, automatic retuning so slow that the operator won't notice it, but fast enough to counteract tough environmental conditions such as high humidity or rapid temperature changes.
- **5 YEAR GOLD SEAL LIMITED WARRANTY ON ALL 550, 440 & GEMINI MODELS.**
- **COMPARE MODELS** - See the "Fisher Features" page for a complete list of all features on all models.
- **OPTIONAL SEARCH COILS** - See back page.

**VLF-552-D PRO VLF-555-D PRO**  
**BODY MOUNTS MAKE TREASURE HUNTING**  
**EVEN EASIER.**

Hang the control housing around your neck and you've taken over ½ the weight off the handle and put the controls right where you want them. All of the same features as on the standard models, including handle mounted DST\* (555-D Pro). The 555-D Pro has an even more compact housing and meter plus a great bonus: rechargeable batteries, a recharger & built-in recharge jack. All the standard equipment and what's more, the batteries are guaranteed for a full year!

- With the optional Zero Buoyancy Search Coil, these models are excellent for shallow water treasure hunting.
- Recommended for competition hunts.

**VLF-920 CASH FINDER**

Fisher quality and Fisher performance packaged in our lightest, simplest and least expensive detector. True VLF-ground rejection and easy 2 knob operation. The VLF-920 is an excellent choice for the beginner, the backpacker or the pro in need of a reliable back-up.

**FEATURES:**

- Feather-light-easy to operate.
- Detects all metals.
- Single-turn ground rejection control.
- Ten-turn super fine tuning control.
- 8" submersible Isocon™ search coil.
- 2-Year Limited Warranty.

**VLF-930-D CASH FINDER**

All the basic features required for top-notch VLF-TR discrimination in a light-weight high quality low-priced machine. Compare with detectors at twice the price and you'll understand why experienced treasure hunters and serious beginners buy and love the VLF-930-D.

**FEATURES:**

- Light & easy to operate
- Dual Mode, VLF - all metal & VLF-TR Discrimination
- Single turn ground reject control
- Single turn tuner
- Push button auto-retune on handle
- Ultra-slow-autotune
- 8" submersible Isocon™ search coil
- 2-year Limited Warranty

# SPECIAL PURPOSE DETECTORS

## — VLF-441 & 442 —

Prospectors know that even the slightest degree of discrimination will tune out small pieces of gold. 440 Detectors were specifically designed to provide extremely powerful ground rejection, ultra-stable operation, maximum depth, long battery life and zero discrimination.

VLF-442

USED BY  
PROSPECTORS  
& TH'ERS WORK-  
ING HIGHLY  
MINERALIZED  
SOIL & SANDS.

VLF-441

Prospectors also know that the more complicated the detector, the more likely a complicated failure. 440 Detectors have only a minimum of controls backed by high reliability circuitry, protected by a heavy duty extruded aluminum housing.

- Optional 3½" nugget coil and 11" deep search coil.
- Optional 8" E.S.I. (Electro-Static-Insulated) coil for black sand and highly mineralized soil.
- Either model may be ordered as a bodymount.

*The Gold Finders*

HEAVY DUTY, DEEP-SEARCH DETECTION EQUIPMENT

## — GEMINI II —

The 2-Box Gemini II is a true "Deep Search" Metal Detector, famous the world over for its ability to seek out large, deep objects with enough penetrating power to locate and trace precious ore veins.

USED BY  
TREASURE HUNTERS,  
PROSPECTORS,  
PUBLIC UTILITIES,  
AND GEOLOGISTS.

### TYPICAL PENETRATION DATA

OBJECT	DEPTH
Jar Full of Coins.....	3'
1" Diameter Pipe.....	5'
Large metal chest.....	10'
Mineral Deposit.....	20'

For reference only. Actual Depth will depend on such factors as metal type, size and soil mineralization.

- Operates in conductive mode to trace buried pipe & cable with optional ground plate. • Powerful 82 KHz transmitter.
- Super-sensitive receiver.
- "Low Power-High Power" switch
- Two Meters • Extra long battery life.
- Ground balance knob on handle.

*Find Deep, Large Objects*

\*GNC - FISHER'S EXCLUSIVE GROUND NEUTRALIZING CIRCUITRY FOR MINERALIZED GROUND REJECTION

### LEATHERETTE COVERED HARD CARRYING CASE

You needn't worry about your Fisher detector being jostled and battered in the back of your off-road vehicle, if it is stored in a solid leatherette covered carrying case. Fits all units except Gemini II. Specify if Body Mount unit when ordering.

### STEREO HEADPHONES

Stereo Headphones reduce background noise enabling you to hear even the slightest instrument response. Using headphones also provides longer battery life. Lightweight and fully adjustable to size, with standard ¼ inch stereo plug, which fits all Fisher detectors as well as most others.

### FISHER CASH/TRASH APRON

Wear a Fisher Cash/Trash apron when digging to stash all of your finds. One pocket for valuables, the other for trash. Roomy and convenient.

### TREASURE HUNTING GUIDES

### LINED VINYL CARRYING CASE

Protect your Fisher detectors from dust and moisture when not in use with a lined vinyl carrying case. Handle and nylon shoulder strap for easy carrying. Fits all units except Gemini II, Body Mount & 1260-X.

### BODY MOUNT KIT

These kits are available for the 400 and 500 Series detectors. All necessary hardware and instructions are included to convert your regular detector to a Body Mount.

### 11-INCH DEEP SEARCH COIL

This highly sensitive coil will locate deep treasures others miss.

### 8 INCH COIL

Standard equipment on Fisher detectors.

### 3½ INCH NUGGET COIL

Ideal for use in rocky streams or small crevices. For VLF-440 Series detectors only.

### COIL COVERS

Protect your coil from wear and damage.

### GEMINI II HARD CARRYING CASE

For storage or protection for your Gemini II from rough handling and adverse weather, use the solid carrying case designed for the Gemini II.

### TREASURE HUNTER'S PATCH

Fisher's sew-on emblems show everyone that you are a proud Fisher owner. The attractive six-color emblems come in two sizes, 3 x 4 inches (cap or shoulder) and 6 x 8 (jacket size).

### 1260-X BATTERY RECHARGE KIT

Recharge your 1260-X from wall socket or auto 12V negative ground cigarette lighter. Includes (8) nicads and (2) chargers.
