UNDERWATER METAL DETECTORS

LIFETIME WARRANTY!

CZ-20 QuickSilver

High-Performance, Submersible, Target-ID Metal Detector

You can go anywhere with the CZ-20 QuickSilver - even 250 feet underwater. The CZ-20 is a go-anywhere, do-anything, all-weather, target I.D. machine that's leakproof to 250 feet. And its patented electronics make it deep-seeking while it ignores the destabilizing effects of salt water. It offers three tones to identify varying types of metal. It's the perfect target-I.D. machine for the versatile treasure hunter who wants to hunt anywhere - underwater, on the beach, in the surf, on dry land and in all kinds of weather. And the CZ-20 is backed by Fisher's **lifetime warranty!**
(Available with 10 1/2" coil for \$1239.95)

\$1219.95*

I280-X Aquanaut

All-Purpose Search & Recovery Metal Detector

Fisher's 1280-X discriminating Aquanaut is engineered to do the job on land, in the surf or 250 feet deep! It features automatic turn-on-and-go operation for salt water, fresh water or land use. Our patented quartz-crystal circuitry offers up to 75 hours of battery life. For added ease of use, the control box converts to a belt mount. Truly a versatile detector that is simple to use, rugged in construction and affordable! The Fisher 1280-X comes with a **lifetime warranty!**
(Available with 10 1/2" coil for \$699.95)

\$679.95*

Impulse

Underwater Pulse Induction Metal Detector

Find treasure on the beach or 250 feet underwater with Fisher's underwater pulse induction metal detector! The Impulse offers black-sand and salt-water operation and has a high sensitivity to silver and gold. It also detects all metals. It is easy to use and provides over 100 hours of battery life. The Impulse includes a waterproof headset, and the control box easily converts to a belt mount unit. It's built tough to take a beating. And like all Fisher metal detectors, comes with a **lifetime warranty!**
(Available with 10 1/2" coil for \$809.95)

\$789.95*

* Manufacturers suggested retail price for units with 8" search coils.

QUICKSILVER TARGET I.D. METAL DETECTORS

L I F E T I M E W A R R A N T Y !

CZ-5

Deep-Search Detector

\$849.95*

The Fisher CZ-5 has it all: high performance, visual target identification and deep-search capability.

Add to that, three-tone audio target I.D., big-target alert, depth reading, pushbutton pinpointing, wet-sand operation, deep-target audio boost and a built-in speaker, and you've got one hot I.D. detector for an affordable price! The CZ-5 is easy to use, just turn-on-and-go with pre-set control markings. It uses two 9V batteries for up to 20 hours of operation. It comes standard with a 3-piece breakdown handle for easy transport and the control box can be handle or hip-mounted. Truly a versatile detector! Fisher's **lifetime warranty** is included!

CZ-7a

Microprocessor-Controlled Detector

It's completely weatherproof! Use it in the rain or without a headset. Even the built-in speaker is weatherproof and the search coil is submersible. Fisher's CZ-7a offers surface mount electronics with **zero** battery drain for last setting turn-on and faster pinpoint-mode response. The control panel shows a 7-category visual target I.D. with easy-to-read icons; 3-tone audio target I.D.; a soft bell tone for large unidentifiable targets; programmable notch discrimination; a hot, wide-scan all-metal auto-tune mode; a wet sand mode; touch-pad VCO pinpointing; and a custom Liquid Crystal Display that gives you the works! Fisher's **lifetime warranty** is included!

\$1095.95*

CZ-7a Pro

Hip-Mountable Target I.D. Detector

Here's just the kind of metal detector you'd expect from the oldest and proudest name in the business. A programmable, deep-seeking target-I.D. machine in a rugged, rainproof package that looks so good and feels so great, you won't want to put it down! Fisher's CZ-7a Pro offers LCD target I.D. with three distinct target tones and a soft bell tone for large shallow objects. And with an easy-to-program notch, you can reject or accept any combination of seven target categories. The Pro offers everything the CZ-7a does with one comfortable difference. The control box of the Pro is belt- or hip-mountable, and even chest-mountable with an optional harness. Fisher's **lifetime warranty** is included!

\$1095.95*

* Manufacturers suggested retail price for units with 8" search coils.

DEEP-SEARCH NUGGET DETECTORS

LIFETIME WARRANTY!

Gold Bug 19 kHz Nugget Hunter

\$499.95*

Fisher's Gold Bug was engineered for one job...finding gold nuggets in mineralized soil.

Many gold bearing areas are literally peppered with small nuggets just inches below the surface. The trouble is, most metal detectors pass right over them. The nuggets are too small or the ground is too heavily mineralized. But not for the Gold Bug! It performs where others can't. Hundreds of Gold Bug users have reported amazing gold finds from the U.S. to Australia. The detector weighs only 2.9 lbs., and comes with a cushioned arm rest and grip, double locking fiberglass stem, push-button retune, and double derivative, quartz crystal-locked electronics. The Gold Bug is hipmountable and comes with either a 6 1/2" or a 10" elliptical search coil for the same great price.

Fisher's **lifetime warranty** is included!

Gold Bug-2 71 kHz Nugget Hunter

Now you can hunt with the next generation Gold Bug - the Gold Bug-2! Fisher engineers worked years to build a detector that would carry on the Gold Bug's well-deserved reputation as the world's premier nugget hunter, and this is it! Like the original Gold Bug, the Gold Bug-2 is designed from the ground up for the sole purpose of finding gold nuggets. It offers extraordinary sensitivity, ultra-high frequency, iron discrimination, dust and moisture resistance, audio boost and the ability to operate in extremely mineralized soil. Using low-noise precision-matched, temperature-compensated components and state-of-the-art circuitry, the Gold Bug-2 takes prospecting to a new level - 71 kHz - the highest operating frequency on the market. It comes with either a 6 1/2" or a 10" elliptical search coil for the same great price. Fisher's **lifetime warranty** is included!

\$789.95*

What's the Difference Between the Gold Bug and the Gold Bug-2?

They are distinctly different detectors, but both were still designed for the sole purpose of finding gold nuggets. The Gold Bug-2 offers ultra-high frequency allowing the user to search deeper for the tiniest gold flakes. And because the frequency differs from that of our regular Gold Bug, searching side-by-side without interference becomes an advantage. The Gold Bug-2 also provides a 3-position Mineralization switch which can be set for high-, normal- and low-mineralization ground conditions. Iron Discrimination is an added feature of the Gold Bug-2. You can eliminate hot rocks and small trash too! A proven feature of Fisher's QuickSilver line, an Audio Boost function was shared with our Gold Bug-2. It automatically increases the volume of any faint signal without increasing the volume of larger, more shallow targets. Gold Bug or Gold Bug-2? The choice is yours!

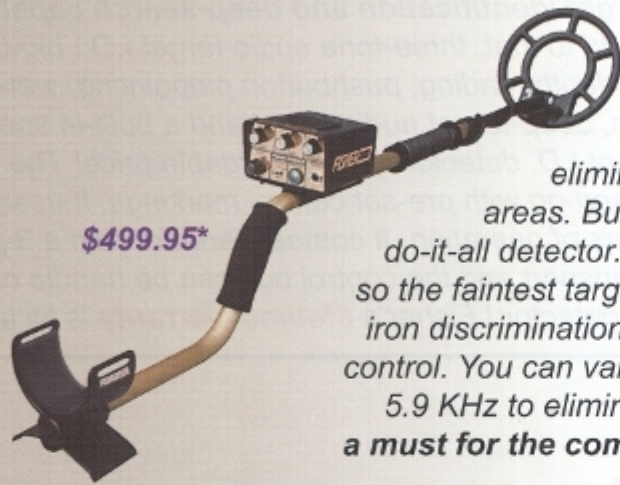

* Manufacturers suggested retail price for units with 6-1/2" or 10" elliptical search coils.

COMPETITION METAL DETECTORS

L I F E T I M E W A R R A N T Y !

1236-X2

Silent, Discriminating, Body-Mount Metal Detector

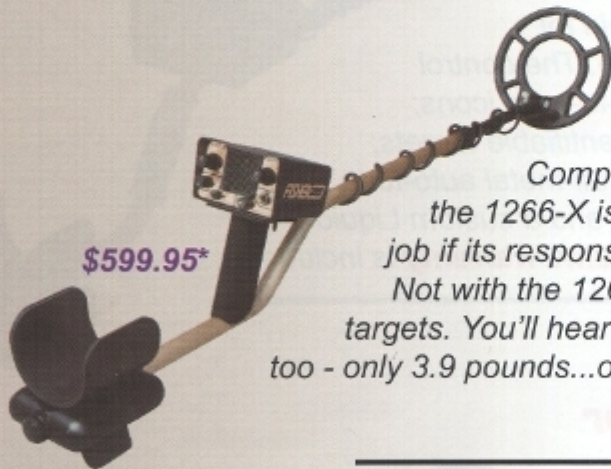

\$499.95*

Finally, the "quiet one" has arrived! Fisher's 1236-X2 offers coin and beach hunters all the sensitivity they've asked for plus a newly developed third derivative silencer mode that helps to eliminate excessive pops and clicks when searching in trashy areas. But that's not all. Fisher has increased the sensitivity of this do-it-all detector. We've provided audio threshold at the maximum setting so the faintest target signal can be heard. The 1236-X2 also offers a preset iron discrimination setting, volume control with on/off switch and frequency control. You can vary the transmit frequency of the 1236-X2 from 5.5 KHz to 5.9 KHz to eliminate electrical interference from nearby metal detectors... a must for the competition hunter! Fisher's **lifetime warranty** is included!

1266-X

Deep Search, All-Purpose Metal Detector

\$599.95*

Fisher's 1266-X was engineered for extreme depth! Test the 1266-X over a small deep target at pull-tab discrimination in mineralized soil. Compare it to any detector made at any price and you'll agree, the 1266-X is the one to beat! A deep-seeking detector isn't doing the job if its response is too faint to hear...you're missing small deep targets. Not with the 1266-X. It will sound off louder and crisper over those small targets. You'll hear more and you'll find more. And the 1266-X is lightweight too - only 3.9 pounds...one of the lightest high performance metal detectors in its class. Fisher's **lifetime warranty** is included.

1266-XB

3-Piece Breakdown Handle in Case

Break it down and take it travelling! Fisher's 1266-XB is a breakdown version of the 1266-X. The handle dismantles into 3 easy-to-store pieces in a compact rugged hard case which measures 6"x15"x21." The case comes as standard equipment on the 1266-XB. Like all Fisher hobby detectors, the 1266-XB comes with a **lifetime warranty!**

\$699.95*

* Manufacturers suggested retail price for units with 8" search coils.

TURN-ON-&-GO METAL DETECTORS

L I F E T I M E W A R R A N T Y !

1212-X

Turn-On-&-Go Metal Detector

More proof from Fisher Research Laboratory that a metal detector doesn't have to be complicated and expensive!

Fisher's 1212-X priced low and extras but a lot

is easy-to-use, searches deep. No of performance and features that really count. Just turn-on-and-go. Fisher's **lifetime warranty** included!

\$199.95*

1225-X

High Performance Metal Detector

Fisher's unbeatable combination - high performance and low price. Our detectors are known for their extraordinary ability to penetrate mineralized soil. The 1225-X is no exception...it goes deep! VLF Slow Motion Discriminizes double derivative ground minerals having coil There's packed

ination util-circuitry to ignore and junk without to whip the search back and forth. a lot of metal detector into the 1225-X. **Lifetime warranty** included! **\$349.95***

SPECIALTY METAL DETECTORS

GEMINI-3

Cache Finder

Fisher's Two-Box goes deeper, traces farther!

If you're a two-box Treasure Hunter, you probably know that the Fisher Gemini-3 has a reputation for

being the best there is. It goes deeper, traces farther and is easier to use than any other cache finder in its class. It is designed to locate large, deep objects. The Gemini-3 comes with Fisher's **lifetime warranty**.

\$599.95

FX-3

Ferro Probe

Fisher's FX-3 Ferro Probe is a Differential Induction Magnetometer designed to locate iron and steel relics, property markers, pipes and other large ferrous objects buried beyond the reach of ordinary metal detectors. The sensitive to surface areas, objects and long objects buried vertically. It is a waterproof probe with simple, one-knob operation. The FX-3 is covered by Fisher's Industrial 2-Year warranty.

\$449.95

CW-10

Concealed Weapons Detector

Fisher's hand-held weapons detector is easy to operate, balanced, lightweight and dependable. Safeguard security-sensitive areas like schools, courtrooms, correctional facilities, sporting events, businesses, night clubs and other public areas. The CW-10 is covered by Fisher's Industrial 2-Year Warranty.
