MASTER HUNTER 7[®]

A.D.S.

DEEPSEEKING CAPABILITIES

Professionals the world over choose Garrett Master Hunter A.D.S. equipment because of its deepseeking capabilities. Don't miss deeply buried treasure. Be sure with a Garrett!

Universal Capabilities:

VLF Deepseeking

- Treasure Hunting
- Coin Hunting
- Coin Sniping
- Money/Cache Hunting
- Battlefield/Relic Hunting
- Prospecting
- Ghost-Towning
- Beachcombing
- Two-Box Deepseeking
- Underwater Recovery

YOU HAVE TOTAL CONTROL WITH THE MASTER CONTROL THUMB SWITCH.

RIGHT: *Automatic Ground/Trash Elimination.

LEFT: Coin Depth, Electronic Pinpointing, Manual Ground Elimination/All Metal.

* GROUND COMMAND™!

Garrett's advanced (*) GROUND COMMAND™ circuitry analyzes ground minerals and adjusts detector to IGNORE IRON MINERALS TOTALLY and INSTANTLY, giving you Automatic Ground Elimination. No knob adjusting ever!

MAJOR PERFORMANCE FEATURES:

- Target Classification Audio
- Target Classification Meter
- Elevated, Protected Meter
- Coin Depth Measuring
- Electronic Pinpointing
- *AUTOMATIC Ground Elimination
- Adjustable Target Elimination
- SILENT or THRESHOLD Audio

- Weight: 5 lbs., 3 ozs.

Garrett's Super-Rugged Specially Designed Deep Scan 7 1/2-inch Searchcoil

THE ADVANCED DETECTION SYSTEM!

SCANNING SPEED

The Master Hunter 7 A.D.S. is a slow scanning speed detector. It is not necessary or desirable to fast "whip" this detector. In the Automatic Ground Elimination mode, the searchcoil can be hovered almost stationary over the target. In the VLF Ground Elimination/All Metal and Electronic Pinpointing Modes, targets will be detected even when the searchcoil is held stationary.

VISUAL TARGET CLASSIFICATION

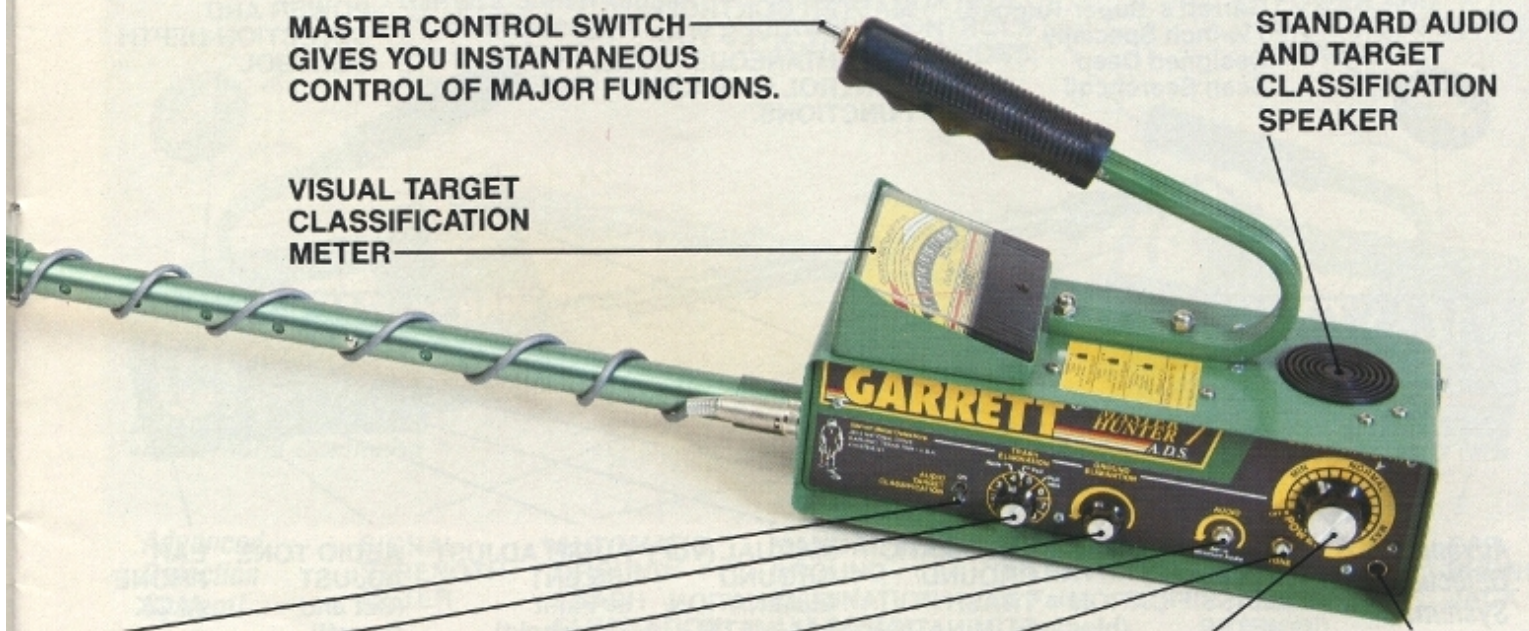

Coin designations such as 1c, 5c, 10c, 25c, 50c, \$1 (American) are clearly marked on the meter. Even though some errors will occur due to target type, orientation in the ground, near-by targets, etc., identification will be very good. This feature will greatly increase your coin hunting efficiency.

ACCURATE COIN DEPTH

Coin Depth to nine inches-plus will be accurately determined. When you take a reading, the meter holds the depth reading until you release the Master Control switch.

HUMAN AND SAFETY ENGINEERED METER

The large scale meter is designed, positioned, and recessed to give MAXIMUM PROTECTION AGAINST DAMAGE and excellent visibility, regardless of which hand you use to hold the detector. You don't have to worry about meter breakage!

MASTER CONTROL SWITCH GIVES YOU INSTANTANEOUS CONTROL OF MAJOR FUNCTIONS.

THE HIGHLY CAPABLE GARRETT MASTER HUNTER 7 A.D.S.

For eight years highly capable Garrett Master Hunter A.D.S. detectors have been the choice of professionals! AND NOW ... *AUTOMATIC GROUND ELIMINATION WITH AUDIO/VISUAL TARGET CLASSIFICATION catapults the Garrett MASTER HUNTER 7 A.D.S. far ahead of all competition!

UNIVERSAL CAPABILITIES: A world-wide field-proved track record guarantees the Master Hunter 7 A.D.S. circuitry will perform Coin, Cache, and Relic Hunting and Prospecting tasks with extreme depth and precision.

***AUTOMATIC GROUND/TRASH ELIMINATION:** Garrett's Automatic Ground/Trash Elimination circuitry eliminates detection of earth minerals and trash targets AUTOMATICALLY! Only desirable targets will be detected!

AUDIO/VISUAL CLASSIFICATION: Targets are AUDIO-TONE CLASSIFIED into conductivity categories and the Meter indicates the probable identity of these targets. With great accuracy, you'll know what you have found before you dig!

GUARANTEED EXTREME EASE OF OPERATION:

- Want to go Coin Hunting? Here's all you do.
1. Turn the detector ON. Batteries check automatically.
 2. Rotate Trash Elimination to the INITIAL (Δ) SETTING.
 3. Momentarily press the Master Control switch to the right.

Built in U.S.A.!

See patent notice, page 13.

Garrett's Master Hunter 7 A.D.S. may be purchased with any combination of searchcoils and/or attachments that you require. See optional searchcoils and accessories on pages 14 and 15.

4. Then ... START HUNTING! Trash targets and ground minerals are automatically eliminated. Audio and Visual Classification accurately identifies detected targets! What could be easier?

ELECTRONIC PINPOINT AND READ COIN DEPTH: Press the Master Control switch to the left and hold as you make one pass over the buried target. The circuits Electronically Pinpoint and accurately measure Coin Depth.

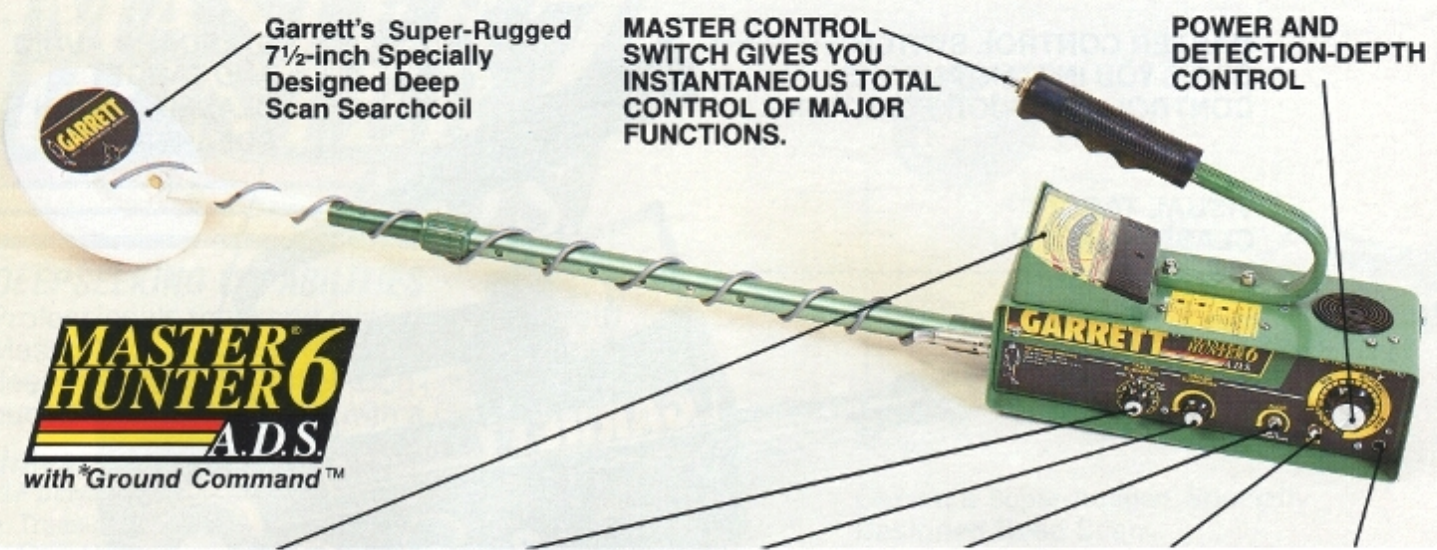

VLF GROUND ELIMINATION/ALL METAL DETECTION: Press the Master Control to the left and release. You can set Ground Elimination to the INITIAL (Δ) SETTING or fine tune as much as you wish in your DEEP SEARCH for CACHES, RELICS, and GOLD!

OPTIONAL SEARCHCOILS EXPAND YOUR CAPABILITIES: Attach the optional underwater searchcoil and locate treasure to water depths of 50 feet. Attach the Bloodhound DEPTH MULTIPLIER and locate money caches and other metal objects to 15 or 20 feet depths. No needless digging here, as the Depth Multiplier ignores small metal trash, minerals, tree roots, and voids!

TREASURE HUNTING IS A WORLD OF ENJOYMENT AND REWARD AS LIMITLESS AS YOUR OWN IMAGINATION AND DESIRE! WHEN YOU OWN A GARRETT MASTER HUNTER 7 A.D.S. ... THE REST IS UP TO YOU!

This versatile detector was designed and built to have every basic operating mode needed for you to be highly efficient, regardless of the treasure and coin hunting or prospecting task you undertake! It has the VLF Ground Cancel all-metal mode for super-deep hunting of treasure caches, relics, and precious metals. For super-deep coin hunting, the AUTOMATIC Ground Elimination Mode means that you just turn the detector on AND START HUNTING! You don't have to adjust out iron ground minerals manually . . . ever! You can adjust the Target Elimination Control to eliminate detection of any or all trash targets. Electronic Pinpointing and Coin Depth Measuring round out the capabilities of this fine instrument. Compare its features and capabilities and you'll see the Master Hunter 5 A.D.S. outclass all competitive detectors. Where else can you get total treasure hunting capabilities, PLUS AUTOMATIC Ground Elimination, in this price range? And, you get Garrett Quality, Dependability, and Performance!

MASTER CONTROL SWITCH GIVES YOU INSTANTANEOUS CONTROL!

Just momentarily press right and release and the AUTOMATIC Ground Elimination/Trash Target Elimination Mode is activated. Press momentarily left and release and the VLF Ground Elimination/All-Metal Mode is activated. Then, to Electronic Pinpoint and Read Coin Depth, press control to the left and hold while you make one pass over the coin! Operation is easy and performance is great!

MASTER HUNTER 4 A.D.S.

GARRETT'S NEW GROUNDHOG!

A Unique General Purpose Coin/Treasure Hunting Detector

CAPABILITIES: Coin/General Treasure/Cache/Relic Hunting, Ghost-Towning, Nugget Shooting, Beachcombing.

MAJOR PERFORMANCE FEATURES:

- Trash Target Elimination Audio
- Trash Target Elimination Meter
- Manual VLF Ground Elimination
- Adjustable Target Elimination
- Audio Threshold Adjust & Operate
- Calibrated Prospecting
- Salt Water Operation
- Adjustable Detection Depth
- Thumb Switch Mode Change/Audio Retune
- Audio Tone Adjustment
- Automatic Battery Check
- Submersible Searchcoil
- Optional Searchcoils
- Signal Strength Meter
- Power: Four 9-volt Eveready Batteries
- Weight: 4 lbs., 11 ozs.

The VLF circuitry and controls built into the Master Hunter 4 A.D.S. give you a wide range of capabilities. THE VLF/VLF Discrimination circuit with Garrett's A.D.S. Master Control switch and Adjustable Trash Elimination give depth, speed, ease of operation, and universal metal detecting capabilities.

You can deep search for money caches, relics, precious metal, even black sand concentrations by momentarily pressing the Master Control switch left to activate the VLF Ground Cancel/All Metal mode. When hunting for coins, rings, and jewelry, momentarily press the Master Control switch to the right to activate the VLF Ground Cancel/Trash Elimination mode. You'll get deep detection even in highly mineralized ground while leaving most of the trash in the ground.

EXTREMELY EASY TO USE!

With Garrett's INITIAL Control Setting (Δ), the need for fussing with adjustments is eliminated. Yet, you have almost total capabilities!

TREASURE RECOVERY FROM SAND AND SEA!

There can be only one leader! Years ago Garrett became the leading producer of underwater metal detectors. Garrett Sea Hunters are used world-wide by those who search for treasures of the deep, jewelry and coins lost on beaches, and gold in mountain streams!

The Sea Hunter is the choice of professionals because of Garrett QUALITY, DEPENDABILITY, FIELD WORTHINESS, and PROVED ADVANCED CIRCUITRY! PULSE POWER, Selectable Target Elimination, Detection Depth Selection, Interchangeable Searchcoils, Garrett Specially-Built Land/Underwater Headphones, and Rechargeable Batteries assure you of trustworthy, worry-free performance.

The XL500 Pulse is designed for use on land or in fresh and salt water to underwater depths of 200-feet. See the chart on page 12 for a comparison of the specifications of Garrett Sea Hunter models.

MAJOR PERFORMANCE FEATURES:

- Garrett Professional Quality PULSE POWER Circuit and Design
- Trash Target Elimination Meter *
- Trash Target Elimination Audio *
- Selectable Detection Depth (Maximum, Normal, Minimum)
- Automatic Ground Elimination
- Audio Threshold Adjust and Operate
- Automatic Battery Check
- Long Stem for Land; Short Stem for Under Water
- Rechargeable Ni-cads with 110-volt and 12-volt Auto Cigarette Lighter Chargers
- Flexible, Zippered Carrying and Storage Bag
- Signal Strength Meter
- Searchcoil and Housing Tested and Certified Submersible 200 Feet
- Headphones Submersible to 200 Feet
- Belt Mounted Control Housing
- Underwater Bouyancy: Slightly Negative

*Fully adjustable trash elimination circuit eliminates detection of foil, small iron pieces, aluminum pulltabs, and other trash. Small nails not eliminated.

Garrett Sea Hunter Underwater Detectors have been used extensively and successfully in every ocean in the world, proving these instruments highly capable and dependable in all situations. Even in Utah's Great Salt Lake, Garrett Sea Hunter Pulse Instruments successfully located metal components from a crashed, sunken American F16 fighter plane.

UNLOCK OCEAN BEACH TREASURE VAULTS!

A new Era In Treasure Hunting Has Dawned: Beach Hunting!

The professionals kept it quiet for years . . . but now the word is out! Ocean and other swimming beaches are "treasure vaults" that can yield fortunes in jewelry lost by swimmers. Sand and shallow water are yielding gold and silver rings, often as plentifully as coins from the ground. A little known fact is that some metal detector users make their full-time living recovering treasure from these treasure vaults!

Garrett responded to the needs of the beach hunter by designing the Sea Hunter XL200. The Garrett XL200 has been used with such success that operators have named it THE SUPREME BEACH MACHINE!. The detector is extremely easy to use: just turn it ON and start hunting! It ignores earth and ocean minerals and most junk targets while detecting coins, gold and silver rings, and other jewelry at extreme buried depths. Just one found diamond ring can more than pay for the Supreme Beach Machine!

Millions of dollars of treasure in rings, coins, and other jewelry await the Beach Hunter!

NOTES: (Y) means YES, standard equipment. (OPT) optional equipment. (—) means NO or not applicable. ELIMINATION means DISCRIMINATION. We believe the word "ELIMINATION" more accurately describes REJECTION of trash metal targets. CLASSIFICATION means the ability of the detector to sort, group, or classify all detected metal targets into meaningful categories.
