Manual/Fully Automated VLF Ground Elimination!

Since the beginning of Garrett Electronics, more than twenty years ago, Charles Garrett decided that JUST DETECTING, was not enough. Today, that tradition lives on! Garrett A.D.S. (Advanced Detection System) metal detectors are versatile, capable, instruments that detect all metals . . . DEEPLY; ignore worthless trash metals and minerals; are easy to use and perform near flawlessly and with complete dependability; have a complete variety of available searchcoils and accessories; and are BACKED BY A MAN WHO USES HIS EQUIPMENT!

How do you select a detector from the many brands declared to be the best? Let Garrett equipment be the standard by which you evaluate the others. Select the correct Garrett model for you, while comparing other brands using the COMPARISON CHART on page five. Notice, no other detectors have the appearance, construction, features, capabilities, dependability, available searchcoils, and accessories of a time-tested, in-the-field proven Universal Garrett A.D.S. . . . selected the world over as the top professional detector.

BOB LILLY

Bob Lilly, known worldwide as "Mr. Cowboy," and for his outstanding performance as defensive tackle with the Dallas Cowboys football team, was honored by his selection into the Football Hall of Fame.

"In my field, I've learned that winning is a combination of quality equipment plus knowledge, ability, and professional techniques. I use Garrett products, not only because Charles Garrett is a friend, but because I know his equipment is a proven winner."

Garrett Master Hunter 7 A.D.S. THE WORLDWIDE LEADER!

Only another Garrett Master Hunter 7 A.D.S. detects as deeply and does as much! This instrument has become a world standard by which all other metal detectors are measured. This HIGH-TECH instrument is designed and field-proved to operate perfectly in all environmental and field conditions, and over the toughest iron earth minerals. If you demand total performance and maximum versatility, and if you are searching for the world's most advanced, capable metal detector, the Master Hunter 7 A.D.S. is the detector you seek!

TWIN HIGH-PERFORMANCE CIRCUITS: Gives MAXIMUM DEPTH on gold, silver, and treasure, in the VLF MODE. Gives perfect COIN HUNTING, even in high trash areas, in the FULLY AUTOMATED VLF MODE.

THREE-WAY METERED, TARGET CLASSIFICATION: Know what you've found before digging. Only Garrett has a three-way classification system whereby you can select

gold/silver coins and jewelry and leave junk in the ground. Completely eliminates bottle caps. Can your detector do this?

COIN ALERT: Only Garrett has this pleasing "sound of money" BELL TONE that instantly identifies detected coins. Coin hunters declare it the best audible TRASH ELIMINATING/DISCRIMINATING system ever devised. Why use less than the best?

FIND MORE TREASURE WITH ADVANCED TECHNIQUES

You are guaranteed to find more treasure by applying the advanced techniques given by Charles Garrett in his new book, Modern Metal Detectors. He explains exactly how you can get maximum performance from land and underwater detectors. He dispels exaggerated manufacturer's performance claims, and gets right to the heart of metal detectors, their history, development, performance capabilities, operational secrets, and how-to procedures. Every question you ever had about metal detectors is answered in this tremendous, 544 page, home, classroom, and field guidebook. And don't forget his number one best seller for ten years, Successful Coin Hunting, now in its Revised seventeenth printing. Thousands of Coin Hunters have successfully applied the Advanced Coin Hunting Techniques explained in this Coin Hunter's Classic. See page 13 for further details.

The Freedom Coin Commanders

Just turn a FREEDOM Coin Commander ON, and start scanning... ground minerals and trash are ignored automatically! If you are age ten to ninety, a beginner or experienced, you'll quickly feel like a seasoned professional! Scan slow or fast, all day, without tiring as with conventional detectors. From the first time you cradle a FREEDOM in your arm, and start finding DEEP COINS in "worked out" areas, you'll know, Garrett has designed the perfect, Coin Hunter's, dream machines!

Our top-of-the-line Spirited Performer, the Freedom 2, features a NEW, DETECTION-DEPTH BREAKTHROUGH! A panel control allows you to select OPTIMUM DETECTION DEPTH for all ground and environmental situations. Now, you can *always* operate at maximum performance! Expect up to 40-percent greater depth! Regardless of the coin detector you are now using, take a giant step forward with Garrett's Freedom 2 Coin Commander!

A WELL-KNOWN FACT: All motion detectors have some difficulty in pinpointing targets. Multiple targets, buried a few inches apart, are even more difficult to pinpoint. Our exclusive, ZERO MOTION, Electronic Pinpointing mode eliminates this problem! With a Freedom 2 or Freedom 1, you can hover, take individual readings, and precisely pinpoint all targets before digging. Try those feats with competitive detectors! With a Freedom Coin Commander, you'll notice extra sharp audio signals when coins are detected: even coins in high trash areas buried deeper than competition can detect them! Notice also, how COMPLETELY, bottlecaps and pulltabs are rejected!

A new concept from Garrett
ZERO MOTION!

Our new 7½-inch searchcoil is five times more stable and 20% lighter!

WORTH \$300,000.00!!

A Coin Hunter found a Blake and Agnell twenty dollar gold coin. THIS COULD HAPPEN TO YOU!

LIFETIME SEARCHCOIL CONSTRUCTION! Poorly-built searchcoils deteriorate rapidly, causing erratic performance and detector failure. This cut-away illustration vividly demonstrates Garrett's high-quality searchcoil construction that lasts a lifetime!

ONLY PULSE POWER...Ignores Salt Water and Iron Minerals, AT THE SAME TIME!

Professional divers, surfers, and beachcombers have known for years that multiple millions of dollars of Spanish shipwreck treasure, and modern-day rings, coins, and other jewelry are waiting to be found. And ... they are finding their share! They treasure hunt full time or they enjoy their hobby part-time while adding to their regular income. You, too, can discover these rich treasure "vaults" with a proven, Pulse Induction, high-power Garrett Sea Hunter detector. Professionals like Robert Marx and many others use the best, why should you use less?

GARRETT DEVELOPED PULSE DISCRIMINATION! WE SHOW COMPETITION THE WAY!

"I won't waste time with poor quality underwater equipment that won't work in salt water and has no discriminating capabilities. Garrett's powerful Pulse instruments do both! I use and recommend them to all real professionals."

Robert Marx
(See his book on page 13)

One if by land!

When searching on land, on the beach, or in the surf, use the long-stem configuration as shown in the above photo.

Two if by sea!

When underwater, use the short-stem, or the compact version (above) when the optional SCUBAMATE attachment is used.

PULSE INDUCTION...IT'S THE ONLY WAY

- ◆ **GARRETT SEA HUNTER PULSE DETECTORS** have been sold world-wide for five years. Thousands of underwater hours have proved these instruments dependable and capable in all environmental situations.
- ◆ **ADJUSTABLE TRASH ELIMINATOR** rejects foil, bottlecaps, pulltabs, and other trash. Small nails may not be eliminated.
- ◆ **GARRETT'S MELO-TONE AUDIO** was developed especially for the beach and surf, and for use with SCUBA gear.
- ◆ **RECHARGEABLE BATTERIES** save you hundreds of dollars in battery costs.
- ◆ **SELECTABLE DETECTION DEPTH CONTROL** lets you: determine target depth-range; search through shallow junk to identify deeper targets; scan shallow to quickly locate newly lost articles; efficiently work high-trash areas.

Sea Hunter XL500 Pulse

When professional divers, surfers, and beachcombers search for treasure, THEY USE THEIR GARRETT SEA HUNTER XL500! They know it delivers performance regardless of what they ask of it. Whether it's land, lake, beach, surf, or ocean treasure you're after, you can depend upon the world's most capable land/underwater detector. The Sea Hunter XL500 Pulse is proven by the professionals!

WEEKEND PROSPECTORS... STRIKE IT RICH WITH YOUR GOLD PAN AND METAL DETECTOR!

Yes, you can find an ounce of gold a day! Garrett's time-tested, field-proven prospecting equipment has found more gold and silver in the United States, Australia, Canada, Mexico, New Zealand, and other countries THAN THE TOTAL FOUND WITH ALL OTHER COMPETITIVE ELECTRONIC INSTRUMENTS.

Charles Garrett has logged in many times more electronic prospecting field hours than all other metal detector manufacturers combined. Because of his efforts, and the phenomenal success of thousands of Garrett equipment users, ABSOLUTELY NO OTHER DETECTORS IN THE WORLD HAVE EARNED A REPUTATION EVEN CLOSE TO GARRETT'S. Charles Garrett proved electronic prospecting methods work!

THE GARRETT PROFESSIONAL GOLD HUNTER VLF/TR

Garrett's Internationally-Proven Gold Hunters can do it all! They found the ONE MILLION DOLLAR HAND OF FAITH and other nuggets as small as .05 grams! Formerly marketed only to professionals in the gold districts of Australia, New Zealand, Mexico, and the U.S., we now make these instruments available to the general public.

Our NEWEST Gold Hunter, the latest in a series that had its beginning in the 1970s, feature our famous 15 kHz GROUNDHOG circuit, FULL VLF/TR DISCRIMINATION (calibration) capabilities, super sensitivity, 10-turn ground AND audio (tune), tone adjustment, two searchcoils, and surplus power to DEEPLY punch through the toughest minerals. Even if you are a beginner, YOU CAN FIND GOLD AND SILVER ... THOUSANDS OF OTHERS HAVE! The Gold Hunter properly identifies metal-versus-mineral and eliminates unnecessary digging by identifying "hot rocks" as worthless. STRAIGHT VLFs AND NON-CALIBRATED UNITS CANNOT DO THESE THINGS! A copy of ELECTRONIC PROSPECTING (see page 13) is yours FREE, when you purchase a Garrett GOLD HUNTER!

The GOLD HUNTER Model 11802

Complete with 7½-inch and 10½-inch shielded, wide-scan Deep Seeking searchcoils, and four long-lasting 9-volt batteries. (Various optional searchcoils and accessories are available.)

Find More GOLD!

Garrett GRAVITY TRAP Gold Pans have won more competitive gold panning championships than all other pans combined. Old-time prospectors, the world over, say the patented 90° riffles are so good, it's hard to throw the gold from the pan! But, be warned, there are many "copies." To avoid patent infringement, these copies do not have the correct 90° riffles but 80° or less which obviously cannot reproduce Garrett's fine gold retention effectiveness. Garrett Gravity Trap® pans ARE THE ORIGINALS! Why buy copies? Why lose gold? Accept nothing but the best ... A Garrett Gold Pan!

The "1849er GOLD RUSH KIT" INCLUDES:

1. STANDARD 14-inch PROSPECTOR PAN. Model 16500. \$7.95
2. Piggy Back 10½-inch FINISHING PAN. Model 16501. \$6.95
3. GARRETT'S COMBINATION CLASSIFIER. Model 16502. \$6.95
4. MODERN ELECTRONIC PROSPECTING METHODS booklet. Explains panning and ELECTRONIC PROSPECTING (Regularly \$1).
5. GARRETT'S GOLD GUZZLER SUCTION BOTTLE. Model 16503. \$2.95

All items may be purchased separately, if desired.

GARRETT'S GRAVITY TRAP GOLD PANNING KIT.

Garrett's new plastic formula now makes our gold pans **unbreakable!** Bend, smash or stomp: you can still use them!
