MASTER HUNTER 7 CDC

AUTOMATIC & MANUAL GROUND BALANCE - Factory Preset or flip a switch and you manually tune to the area you are hunting.

COIN ALERT BELLTONE - Targets accepted in the non-ferrous range are signaled with Garrett's unique Coin Alert Belltone. . . . "The Sound of Money"

TARGET ID METER - Visually identify targets before digging with this proven Master Hunter detector.

DEPTH READING - Know how deep your targets are before digging.

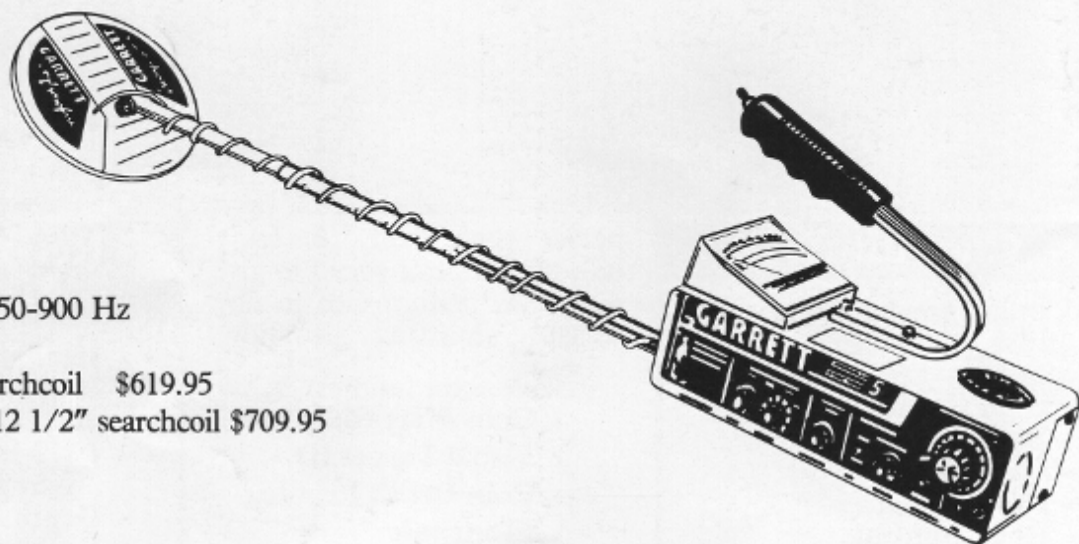

ELECTRONIC PINPOINTING - Flip the Master Control Switch and recover targets with accuracy and ease.

MASTER CONTROL SWITCH - Handle mounted to allow instantaneous switching between All Metal and Trash Elimination Modes. Also hold to left pinpoint, and tell depth of target.

TONE CONTROL - Variable from 150-900 hz allow you to set audio to your preferred level.

POWER/SENSITIVITY CONTROL - Reach unbelievable depths or lessen your sensitivity to attack trashy areas. Newly redesigned circuitry adds inches to this already legendary Master Hunter detector.

CROSSFIRE SEARCHCOIL - Peak performance, super detection depth and absolute 100% wide scan efficiency. All making this Master Hunter 7 better than ever !
