

*It's time to stop metal detecting...and begin treasure hunting!*

# TREASURE MAX!

## The Garrett GTI 2000™

*Graphic Target Imaging Detector*

*Our business is helping you discover Maximum Treasure in the shortest possible time at the touch of a single touchpad!*

Introducing the world's first SUPERPOWER... Graphic Target Imaging Treasure Detector

# The Garrett GTI™ 2000!

Just touch the GTI 2000 POWER Touchpad... immediately begin your search for any treasure with the world's fastest, most accurate and Deep Seeking underground IMAGING metal detector. At the heart of this NEW Imaging Detector is the most advanced DSP computer and searchcoil design ever developed. For the first time in metal detector ground search history YOU'LL KNOW DETECTED TARGET SIZE. This exacting, Electronic-Measurement feature, coupled with Garrett's acclaimed GTA DISCRIMINATING CIRCUITRY gives you treasure hunting capabilities not possible until now.

**IMAGING**  
by Garrett™

- ▶ Instantly the TREASURE VISION SCREEN tells you target size, depth, probable identity and exact pinpointing.
- ▶ You'll search deeper than ever before...so deep it will amaze you.
- ▶ You'll locate more coins and treasure and leave more junk in the ground.
- ▶ Your ability to recover more GOOD targets and fewer BAD targets increases dramatically even in "worked out" or junky areas.
- ▶ You'll dig only the type and size targets YOU WANT TO DIG:  
When coin hunting you'll dig only coin sized targets.  
When cache hunting you'll dig only cache size targets.  
All other size targets you may search for will be the only sizes you'll dig.
- ▶ You'll not be troubled with interference from salt water beaches or highly mineralized ground - even when scanning jumbled iron ore.

Garrett's ALL NEW 9 1/2 - inch **Scorchers™ Searchcoil**  
Three dimensional design with Dual Receiver Coils providing TARGET IMAGING and TRUE DEPTH MEASURING regardless of target size.

These illustrations are a few TREASURE VISION of the GTI's remarkable abilities. Learn how to help you become much more successful!

A-E scales correlate with LCD target Image sizes.

Target Guide relates size & ID

Upper scale cursors indicate all detected targets. This cursor shows a quarter has been detected.

Lower scale segments indicate desired acceptance or rejection of all possible targets.

Number scale gives accurate target depth

Color Size-Image quickly identifies all target sizes.

SEARCH MODE shows that COINS DISCRIMINATION MODE is ON.

This size image and the upper scale 25¢ cursor show that a quarter at 6 inches has been detected.

TOUCH ONCE to begin hunting; hold 5 seconds to return to factory settings.

Press to select All Metal Super-Depth mode and 1-second Ground Balance

Press to pinpoint target, learn target depth and size.

Press to select Discriminate Mode or Last Mode.

IMAGE WHILE SEARCHING, SURFACE ELIMINATION, SALT ELIMINATION, BELLTONE and TALKING IMAGE.

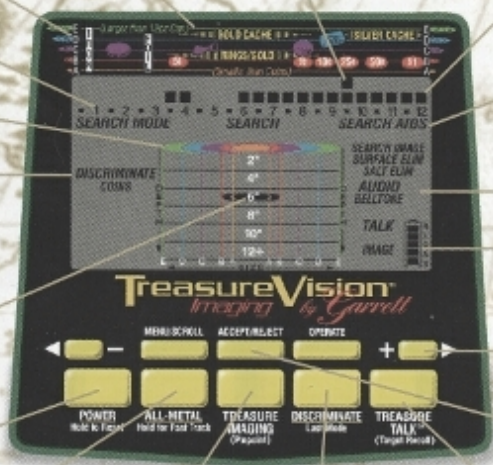

LCD Data Screen

Scale gives constant battery check

This row of touchpads lets you scroll through the Menu set

SET ACCEPT/REJECT GTA discriminate notches and change operational settings.

Press for VOICE to audibly identify last target ID, size and depth.

This image shows that a quarter (25¢) at a depth of 8" has been detected. (9.5B)

This image shows that an aluminum 12 oz. drink can at 10" has been detected. (9D)

This image shows that a large object, possibly a gold cache has been detected at 12-plus inches. (6.5E)

## Here's how the GTI 2000 identifies detected targets and relates their depth and sizes:

- ▶ The 24 GTA Upper Scale cursors identify targets on Target Guide.
- ▶ The six LCD Data Screen depth ranges (2" to 12+)" indicate target depth.
- ▶ The five LCD Data Screen Image Sizes (A to E) relate target size.  
A: Smaller than coins                      D: 12 oz. drink can size  
B: Coin size                                      E: Larger than drink can size  
C: Larger than coins

What's Better Than Depth?

# DEPTH *plus* IMAGING!

**G**raphic target imaging is totally new to the world of treasure hunting. Imaging is the ability of a detector to measure the size of buried and concealed metal objects and report that information to the detector user. How does Target Imaging help me?, you might ask... By combining Imaging with Garrett's DSP Circuitry, Power Master and GTA Discrimination plus all other features of the Grand Master Hunter CX III and GTA 1000 detector, Garrett has built a treasure hunting machine that is light-years ahead of competition.

SIMPLY STATED...TREASURE HUNTERS CAN SEARCH MUCH DEEPER AND MORE ACCURATELY AND CAN GREATLY INCREASE THEIR SHARE OF FOUND TREASURE IN MUCH LESS TIME SPENT SEARCHING.

## Detection Features

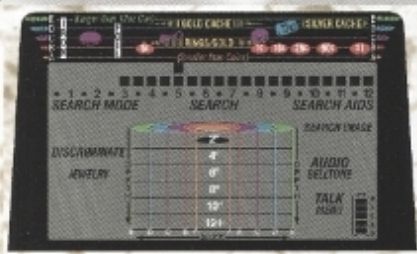

- Microprocessor/DSP One-Touch Operation
- Target Size Measurement/Reporting
- True Depth Measuring regardless of target size
- Graphic Target Imaging (GTI)
- Treasure Vision Treasure Imaging
- 5 Discriminate Modes:
  - Coins, Jewelry, Cache and Zero, plus Custom for setting by user
- Voice, Target Identification
- Deepseeking All Metal Gold/Cache mode
- Automatic Discriminate mode Ground Balance
- 1-Second All Metal mode Ground Balance
- 3-speed Automatic Ground Tracking
- 3-Audio ID: Belltone, BiLevel, Standard
- Adjustable Surface Elimination
- Exclusive 256-step Fine Tuning:
  - Manual Ground Balance, Threshold
- Depth/sensitivity adjustment
- Factory settings reset
- Last Mode instant selection
- Salt Water Hunting
- 8 Operational Frequency Settings

## DIGITAL SIGNAL PROCESSING TREASURE MAX!

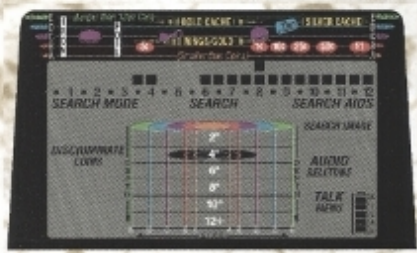

Let the marvels of microprocessor and Digital Signal Processing (DSP) automatically do the metal detecting WHILE YOU DO THE TREASURE FINDING! No other detector in the world is as efficient in finding treasure.

Use the GTI2000 and discover TREASURE MAX!

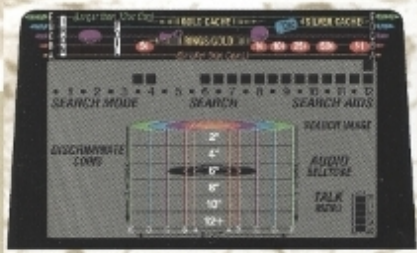

VISION examples show how this new space-age detector can aid in your search for treasure.

This image shows a smaller-than-coin-sized object at 2" depth... possibly a small gold nugget or jewelry piece. (5A)

This image shows an aluminum screentop at 4" depth has been detected. (8C)

This image shows that possibly a pocket watch or small coin cache has been detected at a depth of 6". (12C)

New, lightweight RAMROD one-piece stem

### Built-in Hipmount

Slip Garrett's unique battery compartment onto your belt and reduce detector weight by more than 1/2 pound.

Use Garrett's Full-Range Multi-Notch Discrimination System Once... You'll Never Search Any Other Way.

# GTax™ 400, 500 & 1000

No Competitive system is as accurate, easy to use & understand and as DEEP DETECTING as the GTax.

**W**ith a deepseeking, accurate and user-friendly Garrett GTax you will never wonder "what that signal means." You do NOT have to learn complicated memory programming, number sequences and irregular target patterns. Here's what one GTax user, Monty Moncrief, had to say... "Wow! This system works! At last I know what my detector is really telling me." He further states, "When I want to recover treasure everybody misses in high trash areas, I maneuver the searchcoil around and let the GTA notches "ZERO IN" on treasure hiding among the trash."

**ZERO DISCRIMINATION MODE:** During a single searchcoil sweep, a pulltab and quarter were detected. The operator heard two distinct audio "beeps." The two cursors identified the two targets.

**COINS MODE:** During a single searchcoil sweep, a pulltab and quarter were detected. A single "beep" alerted the operator to the presence of the quarter. Visibly, the operator knew both targets were there. He could also dig the reject target if he wished.

**REJECTING SINGLE TARGET:** If your treasure site is littered with bothersome targets of a single type, such as bottlecaps, **JUST REJECT THEM!** Then, dig only your treasure!

**SEEKING SINGLE TARGETS:** To locate a lost earring, for example, clear the entire lower row of accept cursors. Pass the matching earring under the searchcoil and press the ACCEPT touchpad. The detector will then announce audibly only its mate or an object of similar conductivity. Easy, isn't it?

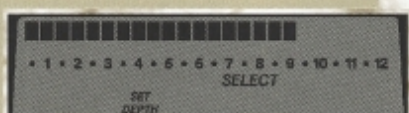

Presented here are a few GTax automatic modes that will help you find more treasure. User-Set modes are also available at the touch of the ACCEPT or REJECT touchpads.

**REMEMBER, with a GTax...**

**NO** ...Memory Programming  
 ...Number Sequences  
 ...Irregular Patterns  
 ...GUESSING!

**PINPOINTING AND COIN DEPTH:** Press PINPOINT and scan over target. At the maximum cursor movement, right to left, of Upper Scale cursors, target is centered beneath searchcoil. Lower Scale cursors move to right, align with Upper Scale and measure depth (5 inches).

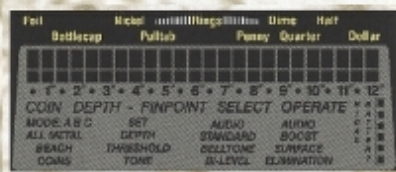

**ADJUST DETECTOR FEATURES:** To adjust Threshold, Depth/Sensitivity, Surface Elimination and Tone, just press the + or - touchpads. In this example Depth/Sensitivity is adjusted to 75% of maximum available power.

Super Depth 8 1/2-inch Crossfire searchcoil

New, lightweight RAMROD one-piece stem guarantees rock-solid construction and positive control.

**FACTORY RESET AND PANEL DISPLAY:** Only Garrett GTax capable detectors display all modes and features at a glance. Just press POWER and hold. After 10 seconds the detector resets to factory-set modes and operating levels.

## The Single-Mode GTax 400

Performance, Value & The Garrett Name

Like all Garrett detectors the lightweight GTax 400 is "human-engineered" with a single goal...to help hobbyists find treasure. Of course, The GTax 400 offers Garrett's famed GTA visual, 17-notch target identification system, OneTouch operation, the new Ramrod stem, rugged reliability and all the basic features that have made GTA detectors the world's most popular. They're as easy to operate as any detectors ever built yet feature sensitive deepseeking circuitry that has proven itself by countless treasure discoveries all over the world. You can't go wrong with a GTax 400.

**GTax 400**  
 with 8 1/2-inch Crossfire searchcoil. Model 1151470  
**\$399.95**

GTax 400 configuration identical to GTax 1000.

## The Dual-Mode GTax 500

Rapid 2-Mode Discrimination

Why do treasure hunters praise the GTax 500 and boast of the wealth it has discovered for them? With the same GTA circuitry as the GTax 1000 this detector offers unexcelled deepseeking capability.

Press one touchpad and you're ready to coin hunt with discrimination factory preset. Yet, this detector offers full range adjustable discrimination to meet any treasure hunting demand. Automatic pinpointing makes recovery even easier.

There's no comparison between the GTax 500 and competitive models. This detector offers so many more features. Check it out for yourself.

**GTax 500**  
 with 8 1/2 inch Crossfire searchcoil. Model 1150970  
**\$549.95**

GTax 500 configuration identical to GTax 1000.

The Six-Mode

# GTAx1000™

There's No Better Way To Describe It...  
The Choice of Coin-Hunters — Worldwide

When its simple OneTouch operation and Graphic Target Analyzer made other detection systems obsolete, the GTAx 1000 quickly became the world's most popular detector. Its new microprocessor-controlled Power Master circuitry enables the GTAx 1000 to hunt inches deeper than earlier models and with added sensitivity.

Press one touchpad and you're ready to hunt. The GTAx 1000 with its three factory-set and three user-set modes will respond to your desires.

The GTAx 1000 excels with its plus-20% Power Booster; Coin Alert Audio Discrimination; Coin Depth Measurement; Audio Boost; Surface Elimination and other special features. With the GTAx 1000 you'll join thousands of others who exclaim, "I'll never use any other kind of discriminating detector. There is nothing like a GTA!"

## NOTICE!

All three GTAx models have the same searchcoil, stem, battery compartment and control housing as the model shown here.

See pages 13, 14 & 15 for complete Features Chart and optional accessories, treasure hunting books and entertaining/instructional videos.

Battery compartment slides off for hip-mounting. (see page 3)

# Master Hunter<sup>®</sup> CX, CXII & CXIII

If You Demand Reliable, All-Purpose Deepseeking Excellence with Computerized Microprocessor ONE TOUCH Operation, One of These Master Hunter CX Models is for You.

**M**ultiple millions of field hours have proven the Master Hunter CX Series metal detectors to be totally reliable and performance dependable. Countless millions of dollars in treasure have been found. Treasure caches and battlefield relics are the CX models' specialties and gold prospectors have located countless gold nuggets, placer and veins.

No competitive detector exceeds the excellence of the Grand Master Hunter CX III in detecting deep caches, gold deposits, coins and relics. The other two models, the CX II and CX, have outstanding sensitivity and versatility. In other words, all three detectors will do it all!

The CX II and CX have all the basic operational features but do not have the Graphic Target Analyzer (GTA) LCD Display, Power Master Depth Boost, TreasureTalk and certain other features. Almost all features of the CX III are performed automatically.

All models utilize all available searchcoils, including the extra-deepseeking Depth Multiplier. All three can perform all treasures searches, but regardless of which instrument you choose, depend upon the Master Hunter detectors to continue performing perfectly, finding treasure for many years.

## CXIII Control Panel

Lower scale segments permit precise Accept/Reject discrimination

Coin ID guide identifies targets

Upper scale cursors identify all detected targets

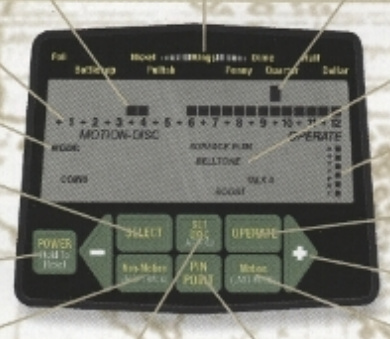

Number scale gives accurate coin depth

Now operating in Mode C (Coins mode)

Press to regulate settings; see and hear all choices

OneTouch to begin hunting; hold 10 seconds to return to factory settings

Press for maximum depth in true Deepseeking. All metal mode; activates Fast Track and Ground Track automatic ground balancing

Use to modify segments for precise accept/reject discrimination

Press to pinpoint target; see and hear exact coin depth

Shown operating with Surface Elimination, Belltone & Audio Boost

Scale gives constant battery check

Press to return instantly to hunting mode

+ and - touchpads change settings

Press to activate 6 Discriminate mode selections; and alternate between Discriminate modes for rapid 2-mode operation

Super Depth 8 1/2-inch Crossfire searchcoil

## Master Hunter CX

Garrett's Basic High Tech Performer: The Cache Hunter's Choice

Touch POWER and immediately begin your search for caches or any deep targets. Team the CX with the optional Depth Multiplier and double or triple your search depth and ignore small metal junk. Connect its Crossfire coil and you have a truly universal detector to hunt anywhere to find any treasure...coins, jewelry, relics, gold nuggets and veins. Its Fast Track balances the ground in five seconds and its ferrous/non-ferrous discrimination lets you zero in on wanted targets.

**Master Hunter CX**  
with 8 1/2-inch Crossfire searchcoil  
Model 1199100

## Grand Master Hunter CXII

Dependable, OneTouch Detection That Leads You to Treasure

Press one touchpad and begin searching in Garrett's exclusive dual-range Discriminate mode. Touch another and you're in a deepseeking All Metal mode for maximum depth. Attach the optional Depth Multiplier and search two to three times deeper for caches. The miracle of computerized technology...the simplicity of OneTouch operation...the ease of automatic ground balancing...the Master Hunter CX II can do it all!

**Grand Master Hunter CXII**  
with 8 1/2-inch Crossfire searchcoil  
Model 1187100

# Grand Master Hunter CXIII®

## Coins, Caches, Nuggets, Relics...TREASURE MAX

In 1976 we began perfecting this professional computerized metal detector with its goal of locating all types of treasure, achieving tremendous depth and efficiency regardless of operating conditions and mineralization. Company founder and president Charles Garrett has led the development, achieving his unwavering goals of perfection and superior performance.

At the heart of the newest Grand Master Hunter CX III is its dual Power Master microprocessor Deepseeking (All Metal) and Discriminate circuitry systems. When the Depth Multiplier is attached, it can detect caches and large treasures two to three times deeper than with conventional searchcoils. The proven results of the 20-plus-year dedicated effort is an automatic detector you can operate with ease and confidence without bothersome manual adjustments, computer programming or memorizing number codes. The new OneTouch Grand Master Hunter CX III with its Power Master depth-boosting circuitry and its unparalleled Graphic Target Analyzer discriminating capabilities lets you concentrate on deep-search treasure hunting.

Enjoy the rewards of...  
TREASURE MAX success!

See pages 13, 14 & 15 for complete  
Features Chart and optional accessories,  
treasure hunting books and  
entertaining/instructional videos.

HELLO! Yes, I truly talk  
and you'll be amazed  
how I will help you find  
more treasure!

You can use the optional  
Depth Multiplier with the  
CXIII, CXII and CX. It  
ignores small bothersome  
trash while locating caches  
two to three times deeper.

# Treasure Ace™ 100, 200 & 300

Just turn on a Treasure Ace Microprocessor controlled, low cost, treasure detector and you're ready to find treasure automatically.

Only Garrett gives you microprocessor technology in this price range. Full range discrimination lets you search for all metal objects or you can dial out foil, nails, bottlecaps, pulltabs and other trash. You then concentrate only on discovering coins, jewelry, money caches and other treasure.

The Treasure Ace loudspeaker sounds off loud and clear when you've found a target. Target pinpointing is a snap with the sharp clear signals. Control knob settings are clearly marked so you can easily adjust controls to your preferred operating points. Circuits monitor battery condition and alert you when it's time to change the batteries. A headphone jack lets you use optional headphones for improved depth and performance.

Treasure Ace detectors are lightweight and easy to use...and, you get GARRETT QUALITY! You can find treasure fast, accurately and economically with these remarkable machines. Why wait...START FINDING TREASURE TODAY!

## TreasureEye and Target Identity Magic

Step-by-step, these four displays illustrate how the loudspeaker, the incredible Treasure Eye and ID Scale precisely locate, identify, and pinpoint treasure!

STEP #1: The upper cursor row is the visual Target Accept/Reject and ID scale. The first five cursors are unlit which means that targets in that range will not be detected. All coins, rings and treasure to the right will be detected. No targets are now being detected.

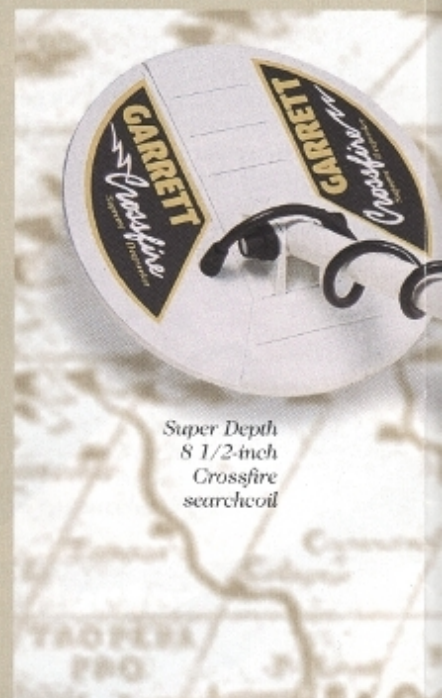

STEP #3: As the coil-center approaches the coin's position, the upper scale cursor indicates a found coin. The audio gets louder and the TreasureEye cursor rows move toward each other and begin closing at center scale.

STEP #2: When the searchcoil first begins to scan over, say, a coin at two inches depth, the loudspeaker begins announcing its presence. Simultaneously, the extreme left and right TreasureEye cursors light up.

STEP #4: When the coil-center is directly above the coin, the loudspeaker produces a loud peak signal and the TreasureEye cursor rows close up at center. The loudspeaker and TreasureEye in synchronism have pinpointed the target!

Super Depth  
8 1/2-inch  
Crossfire  
searchcoil

## Treasure Ace 100

Microprocessor Treasure

Don't let the low price of the Treasure Ace 100 mislead you. Remember, this is Garrett quality and performance-in-the-field that won't let you down. Just turn it ON and its automatic ground balancing and discrimination circuits take over. Listen for its audio alert and dig your treasure. You'll love this little treasure finder!

**Treasure Ace 100**  
with 8 1/2-inch  
Crossfire searchcoil  
Model 1131070

# Treasure Ace 300™

With TreasureEye™  
Target Visual  
Locator and  
Visual  
Target ID  
Performance

**W**hat an amazing detector! The Garrett Treasure Ace 300 truly lives up to its name. You search for treasure with microprocessor capabilities that give you the incredible new TreasureEye and Visual Target Identity. Unbelievable performance at such an unbelievable low price.

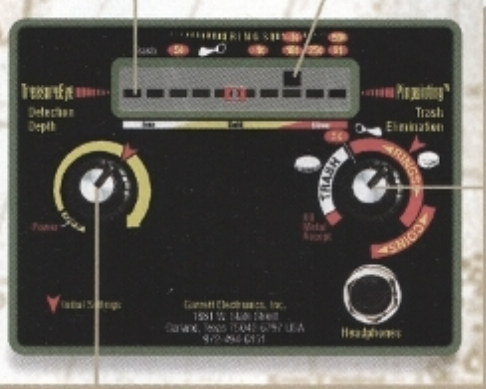

The large LCD (Liquid Crystal Display) has twin 10-segment notch rows. As you search for treasure the Upper Scale tells you how you have discrimination set and all detected targets are visibly announced with its respective ID cursor. Then, the Lower Scale TreasureEye precisely pinpoints the target and gives its relative signal strength. Plus, the powerful loudspeaker emits sharp synchronized audio detection and pinpointing signals.

A depth control permits regulation of sensitivity so you can achieve maximum depth under all search conditions. Battery condition is monitored continually and you are alerted when it's time to change batteries. Automatic Treasure Ace 300 searching... what an exciting way to discover lost treasures!

*New, lightweight RAMROD one-piece stem guarantees rock-solid construction and positive control.*

*The lower cursor scale TreasureEye lets you see when you have found treasure and assists in pinpointing its exact location.*

*The upper cursor scale shows which target types will be accepted and which will be rejected (eliminated). Plus, all detected targets are announced & identified with a cursor.*

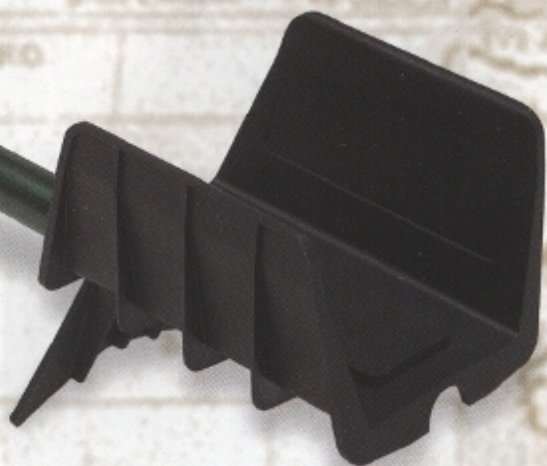

*This control lets you selectively eliminate trash from detection. When you set it fully counterclockwise all metal targets will be detected. The further you rotate it clockwise the more trash that will be eliminated from detection.*

*Lets you select sensitivity and depth of detection best suited for searching conditions.*

# Scorpion Gold Stinger™

*Punches Through Tough Mineralization to Find Gold Yet Offers Precise Discrimination for Coin-hunting*

**G**arrett's famed Groundhog (15 kHz) circuit is renowned over the world for its power in driving through ground minerals to pinpoint the tiniest gold nuggets. Yet, the Stinger offers 3-mode versatility unmatched by other gold-hunting detectors. When you're not locating gold nuggets, use your Scorpion Gold Stinger to locate coins, jewelry or any other kind of treasure.

With Garrett's highly maneuverable 3x7-inch elliptical searchcoil you can find the tiniest nuggets and flakes or you can locate nuggets, veins, float and wet and dry placer to extreme depths with the 5x10-inch elliptical coil. You can sample ore or test "Hot Rocks" with ease.

## Three Detectors in One

Whether you search gold fields, in ghost towns or on the beach...whether you seek gold nuggets, ore veins, coins or jewelry, the Scorpion Gold Stinger has the proven mode for seeking out treasure.

5x10-inch 2D Elliptical Crossfire Searchcoil

### Elliptical Performance:

**5x10-inch:** Large nuggets, coins, general purpose hunting.  
**3x7-inch:** Tiny, pinhead-size nuggets, coins, general purpose hunting in confined and rocky areas.

Calibrated discrimination for ore sampling, testing hot rocks and general treasure hunting

Automatic or manual audio threshold

10-turn audio control for maximum sensitivity

Choose maximum depth and sensitivity under all conditions

10-turn control for precise ground balance

Instant returning Push button

3-mode operation:  
 Deepseeking All Metal - gold hunting  
 Discriminate - general treasure hunting  
 TR Discriminate - Ore sampling

Housing may be hipmounted

### Remember:

The higher the operating frequency the deeper you may detect pinhead-size nuggets. The lower the frequency the deeper you can detect large nuggets.

Garrett has chosen the optimum search frequency.

## Free 10-inch Gold Pan

The Scorpion is right at home over heavily mineralized or rocky terrain. The gold pan is a handy sidekick which speeds recovery of nuggets and is perfect for placer sniping.

## Scorpion Gold Stinger

# "Gold is Being Washed Down Into Local Streams While You Are Reading This..."

## And you can find your share with the King of Gold Pans!

Designed and Patented by Roy Lagal\*

**A**ctually, Mother Nature has already done most of the work for you. Stream action constantly collects nuggets and gold dust in pockets. Vacationers and weekenders are enjoying themselves recovering this gold with their Garrett Gravity Trap Gold Pans!

The patented Gravity Trap Gold Riffles take virtually all the risk out of panning. Professional prospectors say "...it is almost impossible to lose fine gold when using Garrett's patented Gravity Trap Gold Pans!"

### Here's Why You Should Use A Garrett Gravity Trap Gold Pan:

- World's only patented pans, U.S. Pat. 4162969
- Built-in Patented 90-degree Gravity Trap Riffles
- Rugged, lifetime high impact plastic
- Forest Green Color to show gold better
- Fast Recovery in wet or dry panning
- After 20 years... undisputed king of gold pans
- By Garrett... world's metal detector leader!

### All You Need for Family Fun! The Gravity Trap Gold Panning Kit!

Use the 14-inch Prospector for perfect gold recovery. The 10-inch Backpacker offers lightweight panning and gold separation from black sand. The classifier quickly separates large rocks & debris. The Gold Guzzler captures your panned gold. For professional or family gold recovery. All items may be purchased separately.

#### Garrett Backpacker

Be ready to pan that roadside gold gulch. Backpack all your equipment to your favorite dry wash or creek. Extra-large zip-pouch for maps, books, etc. Rugged, waterproof vinyl. Tweezers, two gold vials, ore bag & poncho included with backpack.

The Gravity Trap 90-Degree Gold Riffles Patented because THEY WORK!

Dealer Inquiries Invited

### The NEW... Super Sluice 15-inch Gold Pan King!

Easily Traps One-Ounce & Larger Nuggets!

Appropriately called the Super Sluice Gold Pan due to its extremely deep half-inch riffles for rapid recovery of wet or dry materials. World's first pan that will trap one-ounce and larger nuggets. **LOSE NO MORE GOLD!**

- Trap Larger Nuggets • Work More Material
- Rapid Recovery • Complete Instructions on Bottom
- Saves Valuable Time!

				Garrett Backpacker Kit with tweezers, two gold vials, ore bag, poncho	1651000

Gravity Trap Gold Pans

# Sea Hunter™

Beach & Surf Hunters Demand Deep Ocean Quality

*Scubamate: Perfect accessory for searching beneath the water. One compact assembly eliminates dangling searchcoil cable and excess weight on body.*

## Deep Searching

**F**rom the Gulf of Mexico and Caribbean Sea to the South China Sea and the Gulf of Siam, the Sea Hunter is the primary metal detector used by professional divers who bring up treasures from the deep. They can take nothing for granted and rely on the dependability of Garrett quality.

Thirty fathoms deep or in waist-deep surf, the Sea Hunter's pulse induction circuitry ignores salt water and iron mineralization. No other circuitry can function effectively under such conditions. And, heavy salt is often found in lakes and streams far from the ocean. Use the short stem or the optional Scubamate which eliminates a dangling searchcoil cable or excess weight on the body. You can swim and search with ease!

## Beach/Surf Searching

**S**uccessful surf and beach hunters are now demanding the same standards of quality and reliability so vital to divers 200 feet deep. Those standards can be satisfied only by Garrett's famed Sea Hunter, the detector that has made multi-million-dollar discoveries all over the globe.

Adjustable discrimination rejects foil, bottlecaps, pulltabs and some iron pieces. A meter shows signal strength and monitors battery condition. Targets are announced by Garrett's exclusive "TreasureTone," developed especially to override noisy surf and SCUBA sounds. Why do so many demand the Sea Hunter? Because it's the very best!

Treasure Tone audio with 10-turn control provides maximum sensitivity

Headphone connector also accommodates NiCad recharger

3 depth ranges...super-deep, normal or shallow for trashy areas

Calibrated discrimination rejects unwanted targets

Meter for detected target indication and battery check

200-foot submersible headphones

Surf hunting at its best!

## Detection Features

- Proven reliability
- Pulse induction circuitry
- Submersible to 200 feet
- Full range trash elimination
- 10-turn audio threshold adjust
- TreasureTone™ audio
- Meter for target strength and battery check
- Scuba Mate for diving (optional)
- Long stem for surf/beach hunting
- Short stem for SCUBA and snorkeling
- Submersible headphones
- 6 lbs total operating weight
- NiCad rechargeable batteries w/110v recharger
- 12v Auto Recharger (optional)

Shown with optional Scubamate attachment. Short 12-inch stem is not shown.

## Sea Hunter XL500 Pulse

with 8-inch searchcoil, long and short stems, NiCad rechargeable batteries, 110v recharger, Submersible headphones and carrybag. Model 1112972

**\$1199.95**

Sea Hunter XL500

# Crossfire & Scorcher Searchcoils

Garrett-designed, Rugged, Submersible  
 "Maximum Depth Guaranteed by Field Test..."

## Scorcher Searchcoils

For the GTI 2000 Model (Non-Imaging)

**5x10-inch**, 2219800 \$149.95

**4 1/2-inch**, 2219700 \$99.95

**12 1/2-inch**, 2219600 \$149.95

## Crossfire Searchcoils

For the CX and GTA Models and Freedom Ace

**4 1/2-inch**, Super Sniper, 2217600 \$89.95

**8 1/2-inch**, 2217700 \$99.95

**12 1/2-inch**, 2217800 \$139.95

For the GTAx 400 and  
 Treasure Ace 200 & 300

**4 1/2-inch**, 2218800 \$89.95

**8 1/2-inch**, 2217500 \$99.95

**12 1/2-inch**, 2218400 \$139.95

For the Gold Stinger Model

**5x10-inch**, 2219400 \$139.95

**3x7-inch**, 2219300 \$119.95

## Searchcoil Covers

**4 1/2-inch**, 1604200 \$4.95

**8 1/2-inch**, 1602200 \$6.95

**3x7-inch**, 1601400 \$10.95

**5x10-inch**, 1602500 \$14.95

**9 1/2-inch Scorcher**,

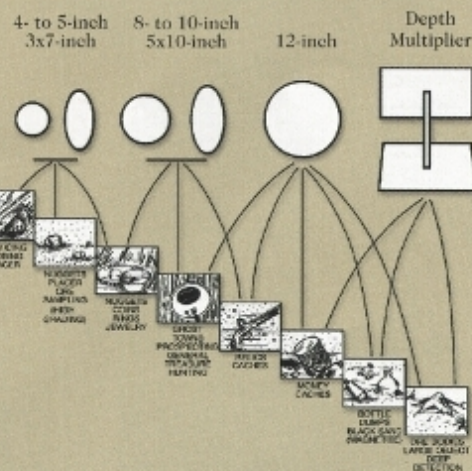

1601900 \$9.95

Team the Depth Multiplier with any CX detector. Find money caches two to three times deeper. No tuning or ground balance necessary. Ignores small trash.

## Depth Multiplier

for use with Grand Master Hunter CXIII and CXII and Master Hunter CX, Model 1607300 \$299.95

Searchcoil Selection/Application Chart

# Pocket Probe™

This handy yet powerful instrument will go anywhere to search walls, chimneys, flooring, and similar spots for lost coins, jewelry and money caches. Keep Pocket Probe with you or in your vehicle. Be Prepared,

**Audio Earplug**, 1600100 \$3.95

**Leather Belt Holster**, 1601100 \$34.95

## Features

- Audio/light indicator
- Automatic tuning
- 8 oz., 3 1/4 x 6 1/4 x 1
- One 9-volt battery

**Pocket Probe**  
 Model 1177000  
 \$119.95

## Dura-Tote Bags

### Deluxe Carrying Cases

For all CX-type detectors, 1616200 \$69.95  
For GTA-type detectors, 1617000 \$69.95

For CX-type detector with armrest attached, 1617300 \$99.95

### Softcases

For all Garrett detectors, two pockets, will hold detector while still assembled, 1608700 \$29.95

## Garrett-Name Wear

### Embroidered Caps

White 1662300  
Black 1662200 \$10.00

### Fashion Embroidered Caps

Plaid 1662700 \$12.00

### Imprinted Caps

Two-tone 1662800 \$6.00

### NiCad Rechargeable Kits

For CX-type (110v), 1610300 \$129.95  
For CX-type (220v), 1610370 \$129.95  
For GTA-type (110v), 1610700 \$99.95  
For GTA-type (220v), 1610900 \$99.95

### Environmental CoverUps

For CX-type, 1600400 \$14.95  
For GTA-type, 1600300 \$14.95  
For GTI 2000, 1618200 \$14.95

### Deluxe All-Purpose Convenience Bag

Six pockets, four with zippers. Convenient top zipper opening. Carry handle and quick-remove adjustable shoulder strap. Perfect for your detector accessories or for travel. Size 14(l) x 8(w) x 11(h). Forest Green. Rugged. (Bottles not included) 1611500 \$19.95

## Recovery Tools

**Plastic Sand scoop** 1600971 \$14.95

**Metal Sand scoop** 1600970 \$39.95

**Composite Digger** (not shown), 1606000 \$6.95

**Digging Kit** (3 items below), 1601000 \$24.95

**Pouch** 1608800 \$8.95

**Digger** 1606100 \$8.95

**Probe** 1605800 \$8.95

### Stereo Headphones (NEW, IMPROVED)

Garrett Master Sound stereo headphones let you hear signals from elusive fringe targets; individual volume controls on each earpiece, 1603000 \$29.95

### Arm Rest, CX Models

Improves balance and control when 12 1/2-inch Searchcoil is used. 1601800 \$29.95

**Master Patch** 1662010 \$3.00

**Special Patches** \$1.50  
Cache Hunter 1662011  
Coin Shooter 1662012  
Competitor 1662013

24-256 = Fine Tuning Steps: Electronic Threshold, Volume, Tone, Ground Balance (GTI-2000 & CXIII)

BCH = Beach Mode

DX = GTI 2000 has a special Digital Signal Processor (DSP) for advanced target analysis.

F = Factory preset threshold-level audio

LCD = Liquid Crystal Display

M = Metered

P = Pulse induction

S = Set to initial points (>). Then, discrimination search mode operation is automatic.

SA = Sharp Audio-Signal Pinpointing

Spe = Special Submersible

Ste = Stereo Headphone Jack, All others (X) Mono

X = Standard equipment on detector as indicated

A = Automatic

#### Patent Recognition

Proof of Garrett's excellence is the recognition given them by the following United States patents: 4,709,213; 4,498,115; 4,700,139; 4,398,104; 4,423,377; 4,303,879; 4,334,191; 3,662,255; 4,162,969; 4,334,192; 5,148,151; 5,148,151; 5,138,262; Design 274,704 and 297,221; G.B. Design 2,01,852; Australia Design 111,674

#### Warranty Protection

Garrett stands behind every product it builds, and offers dependable warranty protection to each buyer. All Garrett land detectors and searchcoils are protected by a two-year limited parts and labor warranty. Sea Hunter is protected by one-year limited parts and labor warranty.

#### Free Treasure Hunting News

For information on treasure hunting and equipment developments read Garrett's publication, The Searcher. To add your name to the mailing lists, write Customer Service, 1881 West State Street, Garland, TX 75042.

#### Factory Tours

Treasure hunters are cordially invited to examine OneTouch detectors and visit the Garrett factory and museum in the Dallas suburb of Garland, Texas. Factory tours are available for clubs and similar groups who make advance arrangements.

Detector Comparison Chart

# RAM Books

## Gold of the Americas

A history of gold and how the precious metal helped shape the history of the Americas; filled with colorful vignettes and stories of bravery and greed. 168 pages, 26 with color illustrations. J. Marx. 1500300 \$12.95

## Find Gold With a Metal Detector

Complete information on using detectors to find gold nuggets, veins and ore; illustrated panning instructions. 140 pages, 20 with color illustrations. Garrett/Lagal. 1545500 \$9.95

## Ghost Town Treasures

The lore of ghost towning with illustrations explaining how to locate them and find the hidden treasure they contain. 156 pages, 20 with color illustrations. Garrett. 1508200 \$9.95

## Buried Treasures You Can Find

State-by-state listing of thousands of sites where treasure is believed to exist; guide for using modern detectors. 365 pages, 48 with color illustrations. Marx. 1500000 \$14.95

## Gold Panning is Easy

Totally new field guide shows the beginner exactly how to find and pan gold and how to locate it with a metal detector. 134 pages, 20 with color illustrations. Lagal. 1505470 \$9.95

## Let's Talk Treasure Hunting

Practical guidebook telling how to find every kind of treasure & how to use a metal detector for even greater success. 235 pages, 26 with color illustrations. Garrett. 1508100 \$9.95

## The New Modern Metal Detectors

Revised handbook for field & home study to increase understanding of any detector, includes computerized models. 446 pages, 50 with color illustrations. Garrett. 1501700 \$14.95

## New World Shipwrecks 1492-1825

Historical details about more than 4,000 wrecks with specific instructions on recovering treasure from them. 434 pages, 48 with color illustrations. Marx. 1505800 \$16.95

## Real Gold in Those Golden Years

Prescription for happier, more satisfying life for older men and women through effective practice of metal detecting hobby. 140 pages, 20 with color illustrations. Garrett. 1500400 \$9.95

## The New Successful Coin Hunting

The world's most authoritative guide to finding valuable coins, includes information on computerized detectors. 259 pages, 34 with color illustrations. Garrett. 1501500 \$9.95

## Sunken Treasure How to Find It

Famed underwater salvor Bob Marx shares a lifetime's experience in locating and recovering treasure from beneath the sea. 402 pages, 48 with color illustrations. Marx. 1507500 \$14.95

## Treasure Recovery from Sand & Sea

Precise instructions for locating the "blanket of wealth" beneath beach sands, the surf and the world's waters. 466 pages, 50 with color illustrations. Garrett. 1505700 \$14.95

## Find An Ounce of Gold a Day

Pocket guide (included with Gold Panning Kit) gives basic instructions on using Gravity Trap pans to recover gold. 48 pages. Lagal. 1543800 \$3.00

## An Introduction to Metal Detectors

Pocket-size book carefully explains in layman's terms how metal detectors operate and how to find treasure with them. 80 pages. Garrett. 1545100 \$1.00

## Security Planning Manuals

Produced by Garrett's Security Division. Effective Security Screening, Effective Ground Searching, School Security Screening, Courthouse Security Screening, Special Events Security Screening. Each \$4.95

## Instructional Videos

VHS Format

Each video \$9.95

### GTI 2000

Explains in detail all operational features of this remarkable new Imaging detector. See how truly easy it is to achieve TREASURE MAX with the GTI 2000. VHS 35 min 1677000

### Grand Master Hunter CX III

Learn how to use the world's ultimate computerized one-touch detector. Includes field demonstration of all controls and techniques. VHS 34 min 1676000

### Grand Master Hunter CX II and Master Hunter CX

Fully explains use of one-touch Grand Master Hunter CX II and Master Hunter CX; field demonstration of all controls and techniques shows versatility. VHS 26 min 1671000

Spanish version 1671071

### GTAX 1000 and GTA 1000

Explains use of one-touch GTA 1000 detector with revolutionary LCD and notch discrimination. Explains all controls and techniques. VHS 26 min 1671200

### GTAX 500 and GTA 500

Fully explains use of one-touch GTA 500 detector with revolutionary LCD target/depth indicator. VHS 21 min 1671400

### GTAX 400 and GTA 350

Tells how to find treasure with these one-touch automatic detectors; explains target ID available with revolutionary LCD. VHS 14 min 1670500

### Scorpion Gold Stinger

Demonstrates use of this detector in the field. Shows clearly how to find nuggets and other sources of precious metals. VHS 24 min 1672500

## Treasure Hunting Videos

### Southwestern Treasures:

Treasures of Mexico - Electronic prospecting by Garrett field team in Mexico's Cobre Canyon; Gold and Treasure Adventures - Competition hunt in California, THing in Europe. VHS 55 min 1670100

### Treasure Adventures:

The Silent Past - Ghost of Big Bend prospector helps modern family discover buried artifacts; Tracking Outlaw Treasure - Modern-day search for cached loot from a 19th century stagecoach robbery. VHS 46 min 1670200

### Weekend Prospecting:

Techniques for finding gold with detector and pan while vacationing in gold country. VHS 50 min 1670600

### Sand and Sea Treasures:

Treasure Recovery from Sand and Sea - Slide show on video, "How-to" beach/surf/water hunting tips; Treasures of the Indian Ocean - Search for 18th-century wreck off Madagascar shows underwater recovery. VHS 50 min 1670300

### Gold Panning is Easy:

Tells where and how to locate gold with Gravity Trap pans. Techniques from companion Ram book are shown. VHS 25 min 1670400
