

MUSKETEER XS

TreasureSearcher

More time
hunting,
less time
setting up

While other treasure hunters are still setting up their machines you'll be finding treasure.

This simple turn on and go detector suits both relic and coin hunters alike with upgraded seeking and discrimination abilities. The high performance capability of this machine combined with amazing ease of use will complement all operators, from beginners to seasoned treasure hunters.

Featuring amazing depth, super sensitivity, a **NEW lightweight 8" water coil**, drop-in batteries, full range accurate discrimination and a non-motion mode for exact target pinpointing.
