**!!DISCOVERY ELECTRONICS PRESENTS THE NEW GOLD TRAX™ MODULE!!**

**GOLD TRAX™ FEATURES**

**SPECIAL -----**

- \* 100% compatible with Discovery's internationally acclaimed Modular Treasure Baron.
- \* True Microprocessor controlled Ground Balance with features no one else can offer.
- \* Turbo Ground Balance™ Mode, a Discovery Electronics exclusive feature. This is the fastest and most accurate way to achieve Ground Balance.
- \* Professional features for Gold detection. Equip the Treasure Baron with the Gold Trax™ module and the Black Sand module, and you will have the best "Gold machine" ever made.
- \* Simple Turn-on and GO! operation. The microprocessor "powers up to convenient presets".
- \* No need to air and ground balance or "pump" the loop as required on other computer controlled instruments.
- \* Iron-Ferrous indicating LED. Works in all modes to tell you if the target is ferrous (iron).
- \* Positive touch, tactile feedback, Keypad response with LED function indication.

**GROUND BALANCE ----**

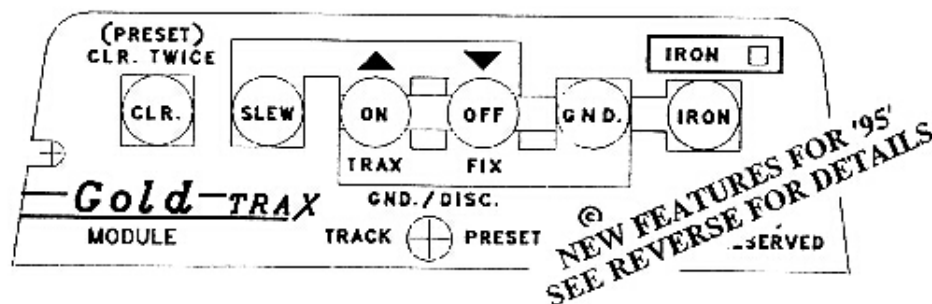

- \* Selectable Ground Tracking, TRAX (tracking) or FIX (fixed). Works in both motion discriminate mode and non motion pin point mode.
- \* Select from 8 different Ground Tracking speeds!. What a fantastic advantage in various soils.
- \* Selectable Target Tracking Inhibit control, ON or OFF. Prevents tracking off on ferrous items.
- \* Ground Tracking available in the Motion and Pin-Point Modes. Think about that!!
- \* Manual Ground Balance if desired. Tailor the performance to your hunting preference.
- \* Ground Balance Offset to enhance "hot rock" performance.
- \* Turbo Mode LED indication of Metal or Low Mineral conditions helps keep you on track.

**PIN-POINT MODE ----**

- \* GB Pin-Point Mode Audio Threshold level control. Set the level that best suits you.
- \* Select from 8 different GB Pin-Point Mode Gains. Lets you smooth out your searching.

**GENERAL -----**

- \* LED Battery Check. Convenient and quick check alerts you to the condition of your batteries.
- \* Single Key to Clear all functions back to "preset". Easy start over point or turn on and go!
- \* Individual function Key Clears. Makes custom setups easy.

You may take pride in the fact that you "OWN TODAY WHAT OTHERS WILL ATTEMPT TO COPY TOMORROW"!

DISCOVERY ELECTRONICS, INC., SWEET HOME, OREGON 97386. PH.: (503) 367-2585

## EASY "TURN-ON AND GO!" OPERATION

=====

**Easy to install and use - Once installed - Simply turn the Treasure Baron "ON" and begin searching. Within seconds the microprocessor will analyze the ground mineral and adjust the detector for maximum performance!** The microprocessor will continue to monitor the ground and make all necessary adjustments to maintain maximum depth.

Gold Trax functions will be at nominal presets: 1) no GB offsets 2) factory set threshold 3) factory set pinpoint gain 4) factory set tracking speed 5) iron tracking inhibit 'ON' 6) ground auto-tune 'ON' 7) audio smoothing 'ON' 8) audio iron alert 'ON'.

=====

## GOLD TRAX CONTROLS

**CLR KEY:** clear all user settings back to "presets".

**SLEW KEY:** Used in conjunction with ON and OFF keys to manually offset the ground balance and to change tracking speeds via on and off keys.

**ON KEY & OFF KEY:** Used to turn ground tracking on or off, to change auto-tune speeds, to change audio threshold or gain in the pinpoint / search mode, to turn the audio iron alert on or off, and in conjunction with the slew key to change tracking speed.

**GND KEY:** Used to toggle the auto-tune on and off, to change auto-tune speed in conjunction with the on and off keys, to change tracking speed when used with the on and off keys.

**IRON KEY:** Used to check the batteries and to turn the iron tracking inhibit on or off.

=====

## NEW FEATURES

Our latest version (2.0) of the Gold Trax module has the following additional features to our original model:

A variable speed auto-tune feature has been added to the pinpoint / all metal search mode for even better performance in tough gold bearing ground regions.

We have added an all new "smoothing" feature for cleaner audio response in adverse areas of use.

In addition to the iron LED indicator, we have added a unique audio indication for even easier recognition of iron objects.

Last but certainly not least we have re-programmed the turn on presets of the Gold Trax to make it the best "Turn on and go" gold machine available.
