

## METAL DETECTORS

*I have found over seven pounds of gold nuggets using Tesoro detectors.*

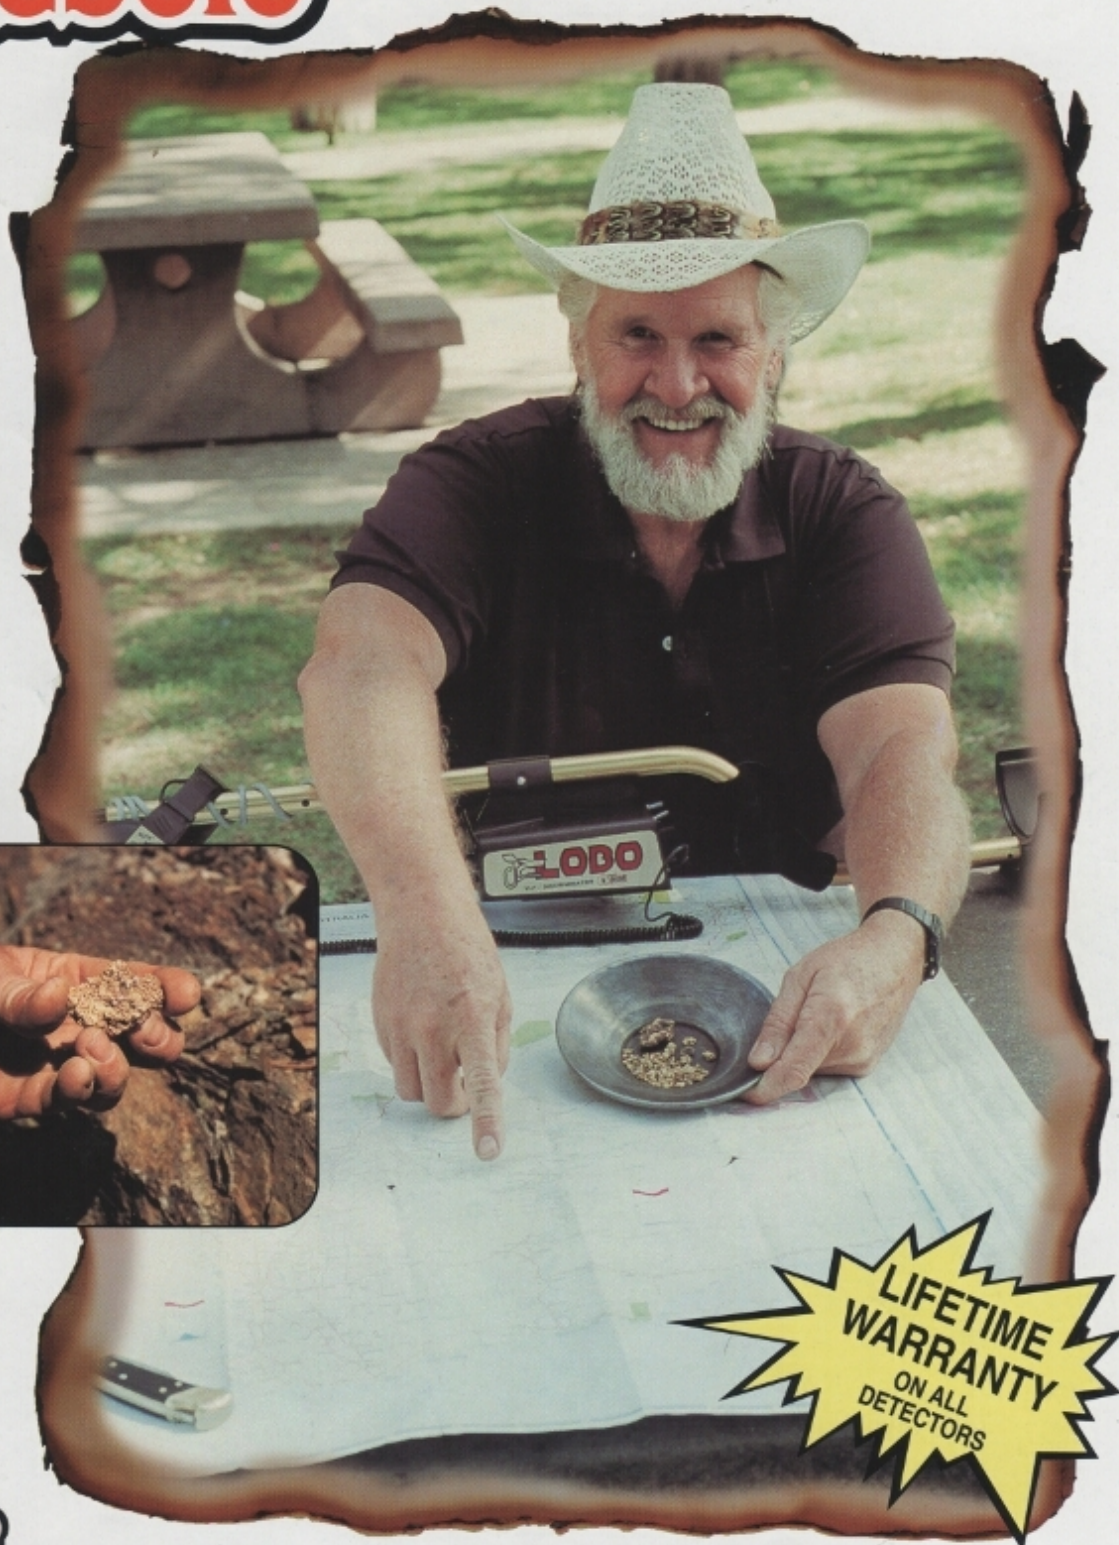

*Regardless of how tiny the nugget, or how severe the ground conditions, Tesoro gets the job done.*

*When you see the gold I've found you will know why I rely on Tesoro for all my detecting needs.*

**Glenn Anderson**

*Pictured is a 2 oz. gold nugget Glenn found recently with a Lobo.*

DETECTORS**

**"THE NAME THAT MEANS TREASURE"**

# TODAYS TECHNOLOGY . . . TOMORROW

## RATED #1 BY MINERS ASSOCIATION

Endorsed by the Shasta Miners and Prospectors Assoc. The Lobo consistently found deeper nuggets, and handled all ground conditions better. Excellent for coins, and relics too.

- VLF 20 Khz Operating Frequency
- No Motion All Metal Mode
- Auto Tune And Normal Tune
- 10 Turn Ground Adjustment
- Silent Search Discriminate Mode
- 10" Elliptical Wide Scan or Concentric Coil

**\$529**

**NEW**

## Sidewinder

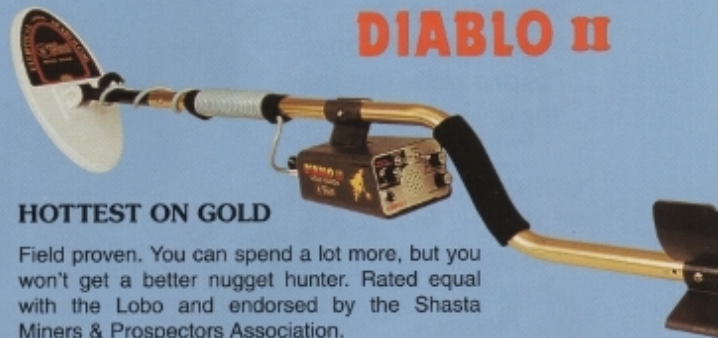

## A FAVORITE AROUND THE WORLD

Million dollar finds have made this Tesoro's number one selling detector worldwide. Lightweight, low price, top performance and turn on and go operation.

- Hybrid HGS Circuit Technology
- ED-120 Expanded Discriminator
- VLF 12 Khz Operation
- No Motion All Metal Pinpoint
- Silent Search Discriminate
- 8" Open-Center Coil W/8' Cable

**\$329**

## DIABLO II

### HOTTEST ON GOLD

Field proven. You can spend a lot more, but you won't get a better nugget hunter. Rated equal with the Lobo and endorsed by the Shasta Miners & Prospectors Association.

- Auto Tune and Normal Tune
- VLF 20 Khz All Metal Operation
- 10 Turn Manual Ground Adjustment
- Ground Mineral Condition Select
- High Gain Sensitivity Circuitry
- 10" Elliptical Wide Scan or Concentric Coil

**\$449**

## SUPERIOR ALL PURPOSE DETECTOR

Superior performance with fewer controls for ease of operation. Motion-based All Metal and Discriminate modes assures excellent results.

- Turn On and Go Simplicity
- Battery Test
- ED-120 Discriminator Eliminates Junk
- Silent Search Discriminate
- Stability Control
- 7" Concentric Search Coil, Interchangeable

**\$229**

## COINSHOOTING PERFORMANCE THAT'S A NOTCH ABOVE

Get rid of trash automatically with NOTCH REJECT and still find rings! Excellent for coins and jewelry. High Gain Sensitivity Circuitry and ED-120 discriminator.

- Turn On and Go Operation
- Dual Tone Target ID
- VLF Operation 12 Khz
- No Motion All Metal Mode
- Silent Search Discriminate Mode
- Notch Reject and Notch Accept
- 8" Open-Center Concentric Coil

**\$459**

# ROWS TREASURE

## A MINIATURE POWERHOUSE

Weighs less than 2 1/2 lbs. The package is tiny, but thanks to surface mount technology performance and depth have not been sacrificed. The Sidewinder is a powerful detector designed to grab and go for travel and competition.

- Three Piece Knock Down Pole
- Quick (push button) Pinpoint
- VLF 12 Khz Operating Frequency
- No Motion All Metal Mode
- Silent Search Discriminate Mode
- 8" Open-Center Concentric Coil
- INTRODUCTORY OFFER INCLUDES:  
"Free Carry Bag" & "Free Headphones"

**\$399**

"THE NAME THAT MEANS TREASURE"

**BANDIDO II**

## AN EXPLOSIVE DETECTOR

A proven deep seeking detector that's rated #1 by relic hunters. With features that make it great for nugget, coin and cache hunting too.

- Hybrid High Gain Sensitivity Circuitry
- VLF Operation 10 Khz
- Tune Select, Auto Tune and Normal Tune
- Ten Turn Ground Adjustment
- No Motion All Metal Mode
- Silent Search Discriminate Mode
- Variable Threshold
- 8" Open-Center Concentric Coil

**\$389**

**STINGRAY**

## UNMATCHED PERFORMANCE

The Stingray has been proven the most successful water detector available. Capable of going to 200 feet underwater, yet sensitive on land as well. No other water detector offers so much regardless of price.

- Exclusive Three Mode Operation: No Motion All Metal, VLF Silent Search Discriminate, and TR Discriminate.
- Operating Frequency 10 Khz
- Built In Headphones With Volume Control
- Hybrid High Gain sensitivity Circuitry
- ED-180 Fully Expanded Discriminator
- Turn On and Go Operation, or Manual Ground Balance
- 8" Open-Center Concentric Weighted Coil

**\$599**

**TOLTEC II**

## ADVANCED TARGET IDENTIFICATION

Winner of deep competition hunts, the Toltec II is sensitive. Featuring Tesoro's latest technical advancements, including: Hybrid High Gain Circuitry. Body mounts instantly, while the meter stays on the pole for easy viewing.

- Meter Indicates Target ID and Coin Depth
- Meter Is Lighted For Night Operation
- VLF 12 Khz Operating Frequency
- No Motion All Metal Mode
- Silent Search Discriminate Mode
- Tune Select, Auto or Normal Tune
- Turn On and Go Operation
- 8" Open-Center Concentric Coil

**\$599**
